A Curious Case.

AN AUSTRIAN OFFICER INSULTS AN AMERICAN LADY AND HAS HIS FACE SLAPPED—SINGULAR NEGOTIATIONS—THE AFFAIR SETTLED.

[From the American (Paris) Register, Aug. 2.]

An account of a difficulty between an American and an Austrian officer comes to us from Vienna, and although it is still known to but few in that city, we feel at liberty to give the facts without mentioning names. A party of ladies walking about the exposition building were followed by three Austian officers, who soon pressed closely upon them and made insolent remarks. The ladies took refuge it the crowd in the Rotundo, and while there Gen. K——of Philadelphia came in. The ladies at once placed themselves under his protection. The officers had steated themselves beside the fountain, and saw that they were the subject of the conversation, but instead of retiring they began to laugh. Gen. K—— was irritated by this insolence, but remembering that the ideas of Europeans are different from ours he turned his back upon the group, and just then the eldest of the ladies told him that one of the youngest had been tapped upon the shoulder with a cane. The general turned quickly and asked which of the three had dared to commit this act. One of the officers was pointed out to him, and at the same time the offender raised his eyeglass and gave an impudent stare, as much as to say, "Well, what are you going to do about it?" Maddened by this insolence, Gen. K—— stepped towards him; the officer rose and advanced to meet him, whereupon Gen. K—— slapped his face in presence of the crowd. The blow was not returned. The officer offered his card, which the general refused, and then the police interfered. The general gave his name and said he could be found at any time on enquiry at the embassy. He again refused the card offered him by the Baron von R——, saying that he would have no dispute with him in which a lady's name must be involved, but he could be found as indicated. The next morning Baron Von R—— sent two friends to demand satisfaction, and Gen. K—— got his friend Gen. C——, to meet them. The latter claimed that the offense had been given by the baron, and that he had been properly punished for it. The two officers pleaded for their friend the manners and customs of the continent. They acknowledged that they had been following the ladies for more than four hours, that they had tried to attract their attention, and that they had just found out their mistake and were going away when Gen. K—— came up. This was denied, for the time was given them to go away if they had wished to do so. Besides Gen. C—— remarked that his friend had only acted as any other American would have done under the circumstances, and that, being an official from a country where dueling was not countenanced, Gen. K—— could not be called upon to fight for having punished an acknowledged impertinence. The officers said the latter reason was a good one, but that the former was not. Owing to custom in Europe, a gentleman "had the right to follow ladies and attract their attention if possible," but they would lay the above reason before their principal. At the next meeting this reason was accepted, the former rejected; and it was urged that whatever might have been his faults, the baron could not put up with a blow without losing caste, and he insisted upon a shot. Gen. C. replied that this would not be refused ultimately, but it must not be upon an affair involving the names of the ladies; and he wished to say that, after consultation with competent persons, he had decided to make this a test case. He would see whether American ladies visiting the exposition were to be subjected to such insolence under the plea that it was allowed by the social code of the continent, and would carry out the matter to the bitter end. It had already been laid before the American minister, who would bring it before the Austrian government if neccessary; and he assured the officers that the whole world would resist the demand of a man for a shot who had first given a confessed insult to ladies, and then challenged the man who had properly punished him for it. But he would undertake this—wishing to get the ladies out of the matter entirely, that his friend, if the former quarrel was dropped, would go every evening to the exposition in order to receive a provocation on other grounds from the baron. The prospect of having the matter carried into diplomacy rather staggered these gentlemen, and they retired to consult their principal. Meantime, a visit was made to the secretary of war, and the matter was laid before him. At the subsequent meeting the officers were inclined to treat amicably, and wanted to settle the matter with an apology. Gen. C—— said that if Baron von R—— would apologise for his insolence to the ladies, Gen. K—— would express his regrets at feeling bound to have recourse to a blow. It is probable that some order was given upon this subject, for the matter was settled upon this basis.

Scandal About the Future Duchess of Edinburgh.

The official announcement of the betrothal of the Grand Duchess Maria Alexandrovna, only daughter of the Czar of Russia, to the Duke of Edinburgh, second son of Queen Victoria, has brought out another episode in the life of the Grand Duchess, which is now the chief subject of gossip in St. Petersburgh. It appears that about two years ago the Czar conceived the idea of marrying his daughter to the Duke of Edinburgh, and, as a preliminary step, sent for a young English professor in the University of St. Petersburg, named Swayne, to teach her English. The Duchess immediately fell in love with her teacher, and informed him of it. For several months he taught her English and she taught him love, but one day the Czar told her he should shortly take her to a German watering-place to make the acquaintance of her intended. She informed him that would be unnecessary, as she had already given her heart and hand to Mr. Swayne. Thereupon she was sent to her apartments, and Professor Swayne was summoned and informed by the Czar that he had better leave Russia immediately, which he did. The young Duchess was inconsolable for a long time, and swore to her parents she would never marry the Duke of Edinburgh. When she was taken to Germany she refused to meet her intended, and during her recent sojourn with her mother in Italy she heaped continued slights upon his head. Her repugnance, however, was finally overcome, and now, instead, of becoming plain Mrs. Swayne, she will soon be Duchess of Edinburgh. How much comfort the Duke may derive from the alliance is another consideration. The episode shows that even a Czar's daughter is apt to be human.

—The Washington Evening Star relates how a young midshipman "in a balconatic state of mind wrote a letter to the Bureau of Navigation of the Navy Department, asking leave of absence with permission to go out of the country, stating that he desired to accompany Prof. Wise on his balloon voyage to Europe. The chief of the bureau, Commodore Ammen, in forwarding the letter to the division of detail, endorsed on the back, 'Respectfully referred; the young man seems to be flighty.' It may be added, no action has yet been taken on the subject."

CHAP. 311.

AN ACT to provide for submitting to the electors of this State, at the general election to be held on the Tuesday following the first Monday of November, eighteen hundred and seventy-three, the question whether the offices of chief judge and associate judge of the court of appeals, of justices of the supreme court, of the judge of the superior court of the city of New York, of the judge of the court of common pleas of the city and county of New York, of the judge of the superior court of Buffalo, of the judge of the city of Brooklyn, of the county judge of the several counties of this State, shall be hereafter filled by appointment, pursuant to section seventeen, article six, of the constitution.

Passed April 26, 1873: three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. The question whether the offices of chief judge and associate judge of the court of appeals, the justices of the supreme court, the judges of the superior court of the city of New York, of the court of common pleas of the city and county of New York, of the superior court of Buffalo, of the city court of Brooklyn, and the county judge of the several counties of this State, shall hereafter be filled by appointment shall be submitted to the electors of his State at the general election to be held on the Tuesday succeeding the first Monday of November next, as provided in section seventeen of article six of the constitution of this State, in the manner hereinafter mentioned.

§ 2. The inspectors of election in each election district in the State shall provide two boxes, in which they shall deposit the ballots of the electors upon the question whether the judges and justices of the several courts named in the first section of this act shall hereafter be filled by appointment. One of said boxes shall be labeled "appointment or election of the chief judge and associate judges of the court of appeals and of justices of the supreme court." The other one shall be labeled "appointment or election of judges of city and county courts." Each citizen entitled to vote at such election may vote two ballots, as follows: One of them shall be endorsed "appointment or election of the chief judge and associate judges of the court of appeals, and of the justices of the supreme court, "and shall contain on the inside, when folded, the words, "shall the offices of chief judge and associate judge of the court of appeals and of the justices of the supreme court be hereafter filled by appointment—Yes," or the words, "shall the offices of chief judge and associate judge of the court of appeals and of the justices of the supreme court be hereafter filled by appointment—No;" and all such ballots shall be deposited in the boxes labeled "appointment or election of chief judge and associate judges of the court of appeals and justices of the supreme court." The other of said ballots shall be indorsed "appointment or election of judges of city and county courts," and on the inside, when folded, shall contain the words, "shall the offices of the judge of the superior court of the city of New York, of the judge of the court of common pleas of the city and county of New York, of the judge of the superior court of Buffalo, of the judge of the city of Brooklyn, of the county judge of the several counties of this State be hereafter filled by appointment—Yes," or the words, "shall the offices of the judge of the superior court of the city of New York, of the judge of the court of common pleas of the city and county of New York, of the judge of the superior court of Buffalo, of the judge of the city court of Brooklyn, of the county judge of the several counties of this State be hereafter filled by appointment—No." And all such ballots shall be deposited in the box labeled "appointment or election of the judges of the city and county courts."

§ 3. The inspectors of election in each election district, after the closing of the polls of such election, shall count and canvass separately the ballots deposited in each of the said boxes in the manner prescribed by law in reference to other elections, and shall ascertain the whole number of ballots upon each of the questions to be submitted as aforesaid. The inspectors, after having so counted said ballots, shall set down in writing the whole number of such ballot supon each question, and the whole number for and against each of the said questions, and shall certify and make return of the said several votes in the same manner as prescribed by law in reference to other ballots at a general election.

§ 4. The votes so given shall be canvassed by the several boards of county canvassers at the next meeting thereof after such election, and the aggregate results in the several counties shall be canvassed and certified by the board of State canvassers. The existing laws in reference to a general election shall in all respects, so far as applicable, apply to and regulate the proceedings and duties of the said board of county and State canvassers, and of the county clerks and secretary of State. From the statements made to the board of State canvassers it shall determine whether a majority of the votes upon the questions submitted to the electors of the State, as herein provided, be in the affirmative or negative. The said board shall make a certificate of such determination and shall deliver the same to the secretary of State, who shall file the same in his office.

§ 5. If a majority of all the ballots indorsed "Appointment or election of chief judge and associate judges of the court of appeals and of justices of the supreme court" shall be in the affirmative, then the said officers shall not after said election be elective, but, as vacancies occur, they shall be filled by appointment by the governor, by and with the advice and consent of the senate, or if the senate be not in session, by the governor; but in such case he shall nominate to the senate when next convened, and such appointment by the governor alone shall expire at the end of that session; but if the majority of said ballots so endorsed be in the negative, then the said officers shall be elective, as heretofore. If a majority of the ballots indorsed "Appointment or election of judges of city and county courts" shall contain on the inside the question as hereinbefore provided, answered in the affirmative, then the said officers mentioned in the said question shall not after said election be elective, but as vacancies occur they shall be filled by appointment by the governor, by and with the advice and consent of the senate, or if the senate be not in session, by the governor; but in such case he shall nominate to the senate, when next convened, and such appointment by the governor alone shall expire at the end of that session; but if a majority of the ballots so indorsed shall be answered in the negative, then the said officers shall be elected as heretofore.

§ 6. It shall be the duty of the secretary of State to cause the said questions, together with the forms of the ballots as herein specified, to be published in two or more newspapers in each of the counties of this state, the same number of times prior to the said election as is now required by law to be published of the officers to be elected and the offices to be filled at such election; such newspapers to be designated by the Secretary of State in the manner now provided by law for designating newspapers to publish election notices; but no neglect or failure to publish or informality of publication shall impair the validity of such election.

§ 7. It shall be the duty of the secretary of State to include in and cause to be published with the election notices for the said general election, a notice in substance and effect as follows: "Pursuant to section seventeen of article six of the constitution of this State, two questions will be submitted to the electors of this State, to be voted upon separate ballots, as follows: 1st. Shall the offices of chief judge and associate judge of the court of appeals, and of justice of the supreme court be hereafter filled by appointment. 2d. Shall the offices of the judge of the superior court of the city of New York, the court of common pleas of the city and county of New York, the judge of the superior court of Buffalo, the judge of the city court of Brooklyn, and the judge of the county courts of the several counties of this State be hereafter filled by appointment." And at such election each elector will be entitled to vote separately for or against each of said questions, and if a majority of the votes shall be in the affirmative of said questions, then the said judges and justices therein referred to, after said election, as vacancies occur, will be appointed by the governor, as provided by law. No failure or omission to give notice, or any informality in the notice or the giving thereof, shall impair the validity of such notice, or the election herein provided for.

§ 8. This act shall take effect immediately.

Yours Respectfully,
G. HILTON SCRIBNER,
Secretary of State.

A Curious Case.

AN AUSTRIAN OFFICER INSULTS AN AMERICAN LADY AND HAS HIS FACE SLAPPED—SINGULAR NEGOTIATIONS—THE AFFAIR SETTLED.

[From the American (Paris) Register, Aug. 2.]

An account of a difficulty between an American and an Austrian officer comes to us from Vienna, and although it is still known to but few in that city, we feel at liberty to give the facts without mentioning names. A party of ladies walking about the exposition building were followed by three Austian officers, who soon pressed closely upon them and made insolent remarks. The ladies took refuge it the crowd in the Rotundo, and while there Gen. K——of Philadelphia came in. The ladies at once placed themselves under his protection. The officers had steated themselves beside the fountain, and saw that they were the subject of the conversation, but instead of retiring they began to laugh. Gen. K—— was irritated by this insolence, but remembering that the ideas of Europeans are different from ours he turned his back upon the group, and just then the eldest of the ladies told him that one of the youngest had been tapped upon the shoulder with a cane. The general turned quickly and asked which of the three had dared to commit this act. One of the officers was pointed out to him, and at the same time the offender raised his eyeglass and gave an impudent stare, as much as to say, "Well, what are you going to do about it?" Maddened by this insolence, Gen. K—— stepped towards him; the officer rose and advanced to meet him, whereupon Gen. K—— slapped his face in presence of the crowd. The blow was not returned. The officer offered his card, which the general refused, and then the police interfered. The general gave his name and said he could be found at any time on enquiry at the embassy. He again refused the card offered him by the Baron von R——, saying that he would have no dispute with him in which a lady's name must be involved, but he could be found as indicated. The next morning Baron Von R—— sent two friends to demand satisfaction, and Gen. K—— got his friend Gen. C——, to meet them. The latter claimed that the offense had been given by the baron, and that he had been properly punished for it. The two officers pleaded for their friend the manners and customs of the continent. They acknowledged that they had been following the ladies for more than four hours, that they had tried to attract their attention, and that they had just found out their mistake and were going away when Gen. K—— came up. This was denied, for the time was given them to go away if they had wished to do so. Besides Gen. C—— remarked that his friend had only acted as any other American would have done under the circumstances, and that, being an official from a country where dueling was not countenanced, Gen. K—— could not be called upon to fight for having punished an acknowledged impertinence. The officers said the latter reason was a good one, but that the former was not. Owing to custom in Europe, a gentleman "had the right to follow ladies and attract their attention if possible," but they would lay the above reason before their principal. At the next meeting this reason was accepted, the former rejected; and it was urged that whatever might have been his faults, the baron could not put up with a blow without losing caste, and he insisted upon a shot. Gen. C. replied that this would not be refused ultimately, but it must not be upon an affair involving the names of the ladies; and he wished to say that, after consultation with competent persons, he had decided to make this a test case. He would see whether American ladies visiting the exposition were to be subjected to such insolence under the plea that it was allowed by the social code of the continent, and would carry out the matter to the bitter end. It had already been laid before the American minister, who would bring it before the Austrian government if neccessary; and he assured the officers that the whole world would resist the demand of a man for a shot who had first given a confessed insult to ladies, and then challenged the man who had properly punished him for it. But he would undertake this—wishing to get the ladies out of the matter entirely, that his friend, if the former quarrel was dropped, would go every evening to the exposition in order to receive a provocation on other grounds from the baron. The prospect of having the matter carried into diplomacy rather staggered these gentlemen, and they retired to consult their principal. Meantime, a visit was made to the secretary of war, and the matter was laid before him. At the subsequent meeting the officers were inclined to treat amicably, and wanted to settle the matter with an apology. Gen. C—— said that if Baron von R—— would apologise for his insolence to the ladies, Gen. K—— would express his regrets at feeling bound to have recourse to a blow. It is probable that some order was given upon this subject, for the matter was settled upon this basis.

Scandal About the Future Duchess of Edinburgh.

The official announcement of the betrothal of the Grand Duchess Maria Alexandrovna, only daughter of the Czar of Russia, to the Duke of Edinburgh, second son of Queen Victoria, has brought out another episode in the life of the Grand Duchess, which is now the chief subject of gossip in St. Petersburgh. It appears that about two years ago the Czar conceived the idea of marrying his daughter to the Duke of Edinburgh, and, as a preliminary step, sent for a young English professor in the University of St. Petersburg, named Swayne, to teach her English. The Duchess immediately fell in love with her teacher, and informed him of it. For several months he taught her English and she taught him love, but one day the Czar told her he should shortly take her to a German watering-place to make the acquaintance of her intended. She informed him that would be unnecessary, as she had already given her heart and hand to Mr. Swayne. Thereupon she was sent to her apartments, and Professor Swayne was summoned and informed by the Czar that he had better leave Russia immediately, which he did. The young Duchess was inconsolable for a long time, and swore to her parents she would never marry the Duke of Edinburgh. When she was taken to Germany she refused to meet her intended, and during her recent sojourn with her mother in Italy she heaped continued slights upon his head. Her repugnance, however, was finally overcome, and now, instead, of becoming plain Mrs. Swayne, she will soon be Duchess of Edinburgh. How much comfort the Duke may derive from the alliance is another consideration. The episode shows that even a Czar's daughter is apt to be human.

—The Washington Evening Star relates how a young midshipman "in a balloonatic state of mind wrote a letter to the Bureau of Navigation of the Navy Department, asking leave of absence with permission to go out of the country, stating that he desired to accompany Prof. Wise on his balloon voyage to Europe. The chief of the bureau, Commodore Ammen, in forwarding the letter to the division of detail, endorsed on the back, 'Respectfully referred; the young man seems to be flighty.' It may be added, no action has yet been taken on the subject."

CHAP. 314.

AN ACT to provide for submitting to the electors of this State, at the general election to be held on the Tuesday following the first Monday of November, eighteen hundred and seventy-three, the question whether the offices of chief judge and associate judge of the court of appeals, of justices of the supreme court, of the judge of the superior court of the city of New York, of the judge of the court of common pleas of the city and county of New York, of the judge of the superior court of Buffalo, of the judge of the city of Brooklyn, of the county judge of the several counties of this State, shall be hereafter filled by appointment, pursuant to section seventeen, article six, of the constitution.

Passed April 26, 1873; three-fifths being present.

The People of the State of New York, represented in Senate and Assembly, do enact as follows:

SECTION 1. The question whether the offices of chief judge and associate judge of the court of appeals, the justices of the supreme court, the judges of the superior court of the city of New York, of the court of common pleas of the city and county of New York, of the superior court of Buffalo, of the city court of Brooklyn, and the county judge of the several counties of this State, shall hereafter be filled by appointment shall be submitted to the electors of his State at the general election to be held on the Tuesday succeeding the first Monday of November next, as provided in section seventeen of article six of the constitution of this State, in the manner hereinafter mentioned.

§ 2. The inspectors of election in each election district in the State shall provide two boxes, in which they shall deposit the ballots of the electors upon the question whether the judges and justices of the several courts named in the first section of this act shall hereafter be filled by appointment. One of said boxes shall be labeled "appointment or election of the chief judge and associate judges of the court of appeals and of justices of the supreme court." The other one shall be labeled "appointment or election of judges of city and county courts." Each citizen entitled to vote at such election may vote two ballots, as follows: One of them shall be endorsed "appointment or election of the chief judge and associate judges of the court of appeals, and of the justices of the supreme court, "and shall contain on the inside, when folded, the words, "shall the offices of chief judge and associate judge of the court of appeals and of the justices of the supreme court be hereafter filled by appointment—Yes," or the words, "shall the offices of chief judge and associate judge of the court of appeals and of the justices of the supreme court be hereafter filled by appointment—No;" and all such ballots shall be deposited in the boxes labeled "appointment or election of chief judge and associate judges of the court of appeals and justices of the supreme court." The other of said ballots shall be indorsed "appointment or election of judges of city and county courts," and on the inside, when folded, shall contain the words, "shall the offices of the judge of the superior court of the city of New York, of the judge of the court of common pleas of the city and county of New York, of the judge of the superior court of Buffalo, of the judge of the city of Brooklyn, of the county judge of the several counties of this State be hereafter filled by appointment—Yes," or the words, "shall the offices of the judge of the superior court of the city of New York, of the judge of the court of common pleas of the city and county of New York, of the judge of the superior court of Buffalo, of the judge of the city court of Brooklyn, of the county judge of the several counties of this State be hereafter filled by appointment—No." And all such ballots shall be deposited in the box labeled "appointment or election of the judges of the city and county courts."

§ 3. The inspectors of election in each election district, after the closing of the polls of such election, shall count and canvass separately the ballots deposited in each of the said boxes in the manner prescribed by law in reference to other elections, and shall ascertain the whole number of ballots upon each of the questions to be submitted as aforesaid. The inspectors, after having so counted said ballots, shall set down in writing the whole number of such ballot upon each question, and the whole number for and against each of the said questions, and shall certify and make return of the said several votes in the same manner as prescribed by law in reference to other ballots at a general election.

§ 4. The votes so given shall be canvassed by the several boards of county canvassers at the next meeting thereof after such election, and the aggregate results in the several counties shall be canvassed and certified by the board of State canvassers. The existing laws in reference to a general election shall in all respects, so far as applicable, apply to and regulate the proceedings and duties of the said board of county and State canvassers, and of the county clerks and secretary of State. From the statements made to the board of State canvassers it shall determine whether a majority of the votes upon the questions submitted to the electors of the State, as herein provided, be in the affirmative or negative. The said board shall make a certificate of such determination and shall deliver the same to the secretary of State, who shall file the same in his office.

§ 5. If a majority of all the ballots indorsed "Appointment or election of chief judge and associate judges of the court of appeals and of justices of the supreme court" shall be in the affirmative, then the said officers shall not after said election be elective, but, as vacancies occur, they shall be filled by appointment by the governor, by and with the advice and consent of the senate, or if the senate be not in session, by the governor; but in such case he shall nominate to the senate when next convened, and such appointment by the governor alone shall expire at the end of that session; but if the majority of said ballots so endorsed be in the negative, then the said officers shall be elective, as heretofore. If a majority of the ballots indorsed "Appointment or election of judges of city and county courts" shall contain on the inside the question as hereinbefore provided, answered in the affirmative, then the said officers mentioned in the said question shall not after said election be elective, but as vacancies occur they shall be filled by appointment by the governor, by and with the advice and consent of the senate, or if the senate be not in session, by the governor; but in such case he shall nominate to the senate, when next convened, and such appointment by the governor alone shall expire at the end of that session; but if a majority of the ballots so indorsed shall be answered in the negative, then the said officers shall be elected as heretofore.

§ 6. It shall be the duty of the secretary of State to cause the said questions, together with the forms of the ballots as herein specified, to be published in two or more newspapers in each of the counties of this state, the same number of times prior to the said election as is now required by law to be published of the officers to be elected and the offices to be filled at such election; such newspapers to be designated by the Secretary of State in the manner now provided by law for designating newspapers to publish election notices; but no neglect or failure to publish or informality of publication shall impair the validity of such election.

§ 7. It shall be the duty of the secretary of State to include in and cause to be published with the election notices for the said general election, a notice in substance and effect as follows: "Pursuant to section seventeen of article six of the constitution of this State, two questions will be submitted to the electors of this State, to be voted upon separate ballots, as follows: 1st. Shall the offices of chief judge and associate judge of the court of appeals, and of justice of the supreme court be hereafter filled by appointment. 2d, Shall the offices of the judge of the superior court of the city of New York, the court of common pleas of the city and county of New York, the judge of the superior court of Buffalo, the judge of the city court of Brooklyn, and the judge of the county courts of the several counties of this State be hereafter filled by appointment." And at such election each elector will be entitled to vote separately for or against each of said questions, and if a majority of the votes shall be in the affirmative of said questions, then the said judges and justices therein referred to, after said election, as vacancies occur, will be appointed by the governor, as provided by law. No failure or omission to give notice, or any informality in the notice or the giving thereof, shall impair the validity of such notice, or the election herein provided for.

§ 8. This act shall take effect immediately.

Yours Respectfully,
G. HILTON SCRIBNER,
Secretary of State.

The Daily Freeman.

Kingston, Saturday Morning, Aug. 30.

The expressed determination of the State Assessors to correct the abominable system of assessments in vogue is most commendable, if followed out to the letter. During a late visit of the board to a certain section, their opinion of matters under consideration is thus reported: "Outside of corporations, they say that nearly three-quarters of the tax paid on personal property is collected of widows and orphans. A man dies and his estate comes into the hands of executors or administrators, and down goes every cent of personal property on the tax book, often at its full value, while men by scores, with much more wealth, are not assessed at all."

The attempt of many moneyed people in this country to be over and exclusively aristocratic is very silly when looked at practically. Unless corruption is fully legalized, does the wealth of a man make him any different from his poorer fellows when taken before the bar of justice? Also does his individual vote amount to any more at the ballot box? Still many would-be aristocrats ape foreign titled rank. Observe the difference! Nobility by right of birth makes a man a law-maker of the realm; his opinions to be sought; his direct influence unbounded. In the United States money can buy much of personal import; but yet how shallow is the reality—all dross; no pure metal!

The delivery of letters from post-offices in populous places by carriers is very popular wherever tried, and is invariably adopted. It avoids frequent disappointment in running to the post-office after delayed expected letters—it does away with the tedious delay awaiting the distribution of mails—it uses up the most patience destroying practice of all, that is the habit of many, just ahead of you at the post-office delivering aperture, of asking for letters for a dozen or so different persons out of the general boxes from A to B. The system of carrier delivery also aids postal clerks greatly in their customary duties, where the force is small, as it necessarily gives them the time lost by constant inquiries for mail matter.

The Graphic, which, like most papers claiming to be run on common sense principles, takes no stock in the foolish talk about Cæsarism and disposes of the matter very curtly by demonstrating that President Grant has none of the qualifications requisite to make a Cæsar of him. Leaving its badinage, choosing to call it such, there is in its article a more serious question discussed, and it considerthoughtfully the subject of the length of the Presidential term. While it argues against third terms, claims the office should be held for but one term, and that the term should be six years. "One term of six years," it says, "with a wise and efficient civil service, is what the nation needs, and what, we trust, the present discussion will lead to." And from the attention given to the subject we are inclined to think the question of fixing the limit to one term of six or eight years will be a leading one in the national councils in the near future.

The ponderous London Times, however unwieldy it appears to us Americans, who like more sprightliness in our newspapers, is yet a very fair index of public sentiment in England, and when it expatiates on national or international subjects it is of England very Englishy. So when in a large and elaborate leader it dolefully drones out a song the burden of which is that England is losing control of the iron trade, we know that it speaks for the whole people, who are forced to confess that that country has lost its pre-eminence in that special branch of trade and that its younger but more active and enterprising competitor, the United States, is gradually monopolizing it. There is both cause for rejoicing and a warning to us in this. The Times lays the chief blame for the decline in the English iron trade to the strikers, and therein is our warning. We would do well to so arrange our wages question that disputes will not be likely to arise, and when they do arbitration and not violence should decide the matter.

Was it a Mistake?

The World correspondent from Norwalk, Conn., publishes in the list of fat men the name of Miss H. Williamson of Five Mile Row. Also the names of several ladies, married or single. These portly people of both sexes had a clambake out in good old Connecticut and, of course, enjoyed themselves *hugely*, as such huge specimens of humanity necessarily must. They averaged precisely two hundred and thirty and one-third pounds in weight. They aggregated over thirty-three thousand pounds; and there were only one hundred and forty-three of them, all told. One man was so heavy he had to be shipped as freight. None of the railroad or steamboat companies would take him except by the hundred. The others came on the cars with only five to the car-load.—But why are the women called fat men? Some hidden political meaning in this, no doubt. "Oh, that this too solid flesh would melt."

Tilton's French.

The editor of the Golden Age has just "dropped into poetry" and concludes each of his verses with the French motto

"Aimer, aimer, c'est a vivre."

The subject of the poem is the *grande passion*, love. Whereupon Dana of the Sun, who is no less eminent as a modern linguist than as an "attempted" martyr, indulges in a tilt on Tilton, and flatly tells him that he (Tilton) don't know French. The fault of which the "outraged" Sun complains is the putting a preposition before the last infinitive in the French line. We reluctantly admit the justice of Dana's criticism and are sorry to see any respectable infinitive treated in that way. "To love is to live" no doubt, but let us love and live grammatically, and not feast, like ghouls, on the horrible entrails of dismembered French.

Short Crops in Europe.

The Mark Lane Express, the organ of the grain and flour-dealing interest in England, states that the outlook touching the grain crop for the present year in Europe is very discouraging. Rye is deficient in France, Germany, Holland and Belgium. Austro-Hungary, which usually exports a vast amount of wheat and barley to other European countries, is said to be deficient in power to do so the present season, probably sending out about one-third the usual quantity. Trans-Atlantic necessity in the matter of food is, of course, our opportunity, as we almost always have a surplus for export, when prices abroad make exportation an object. At home, all accounts agree that we have at least an average crop of wheat, while the overplus of last year's crop of corn will be needed to make up this year's deficiency. So there will be no dead corn to drag down the general produce market. Now, while farmers complain and grumble, is nevertheless the time for them to ship grain. Even at the existing high rates for transportation, buyers will take their stock so as to leave a margin of profit. In addition to this we are about $50,000,000 better off than last year, as appears after striking a balance of imports *vs.* exports. Thus, there are two good elements in the situation as to bread-stuffs. Europe wants our surplus and can pay for it, and we have it to sell.

Approaching Imbecility.

Having kept up a close and constant watchfulness upon the career of funny folks for an extended term of years, we are able to specify the premonitory symptoms of their decline. Among the fatal signs of their swift-coming inanity and vapidness is the tendency to parody Poe's "Raven." When a comical genius who tickles ribs publicly for a living tries his hand at that his wife should look up his life insurance policy and his friends stop lending him money. His career is nearly closed, and oxygen gas will soon be superfluous in his case. The Danbury man has not exactly done this, but he is guilty of the next thing to it. The *pome* called "A Raving," copied by him from the Boston Commonwealth, is an *apros Poe* illustration. We are pained to our inmost liver to see this. Our sensations are much as we suppose they would have been at witnessing the unavailing slaughter at Balaklava, or a fat man trying to climb a slippery Po(l)e. It is a dreadful sacrifice of courage and manliness in an effort to accomplish the impossible. It awakes the memory of the noble Greeks who perished under the walls of Troy—on the outside. Upon the rock of that false, treacherous, tenacious raven how many fair and promising punsters have dashed themselves and died. Don't risk it, oh, ye gentle jokers, not even "Once upon a midnight dreary."

CURRENT TOPICS.

—Hardly a single country partisan journal in the state but has a candidate or two named for places on the opposing state tickets.

—Rev. Henry Ward Beecher has been last heard from in a woman's rights speech, at Lancaster, N. H.

—Defalcations are the order of the day. A natural result of putting trust funds within the keeping of persons who desire large riches by speculation instead of slow toil.

—That monstrosity, a "fat man's clam bake," has taken place at Norwalk, Conn. No sudden deaths among the participants has since been reported.

—It is estimated that it takes $18.50 as the cost of a day's sojourn at Niagara Falls—counting the various toll fees with legitimate expenses. No wonder that this new tariff of rates causes a dull season at that heretofore popular resort.

—Politicians now begin to take the attention of people more by their hue and cry than during dog days, so called. If all dogs have their day, let people make it lively for self place seekers in conferring political preferment.

—Brooklyn remains very much excited over the heavy defalcation of its Deputy Treasurer, M. T. Rodman. For the time, the Goodrich murder case and the investigation into the Sheriff's accounts are quite overlooked. Also the interest in the appointment of a new Chief of Police.

—Every now and then a self-confessed Nathan murderer turns up. Investigation has heretofore pronounced all such to be pure unmitigated frauds, with interested personal objects in view for their lies. The last instance, from San Francisco, is regarded as being a scamp who wishes a free trip to New York.

—The New York Star has an article in which is asserted that the general use of pie, in particular among unwholesome eatables, is making us a nation of dyspeptics. The writer adds: "Dyspepsia is the condition that almost always precedes consumption, and more than three-fourths, and probably seven-eighths, of all the consumptives in adult life were dyspeptic in youth. There were 14,000 deaths in New York in 1872 attributable to diseases intimately connected with indigestion, and, if we take this city as the basis of a calculation for the whole country, the result is frightful."

—The Herald reporters, in interviewing prominent men as to their individual opinions about an assumed republican Cæsarism, ran across Alexander H. Stephens, former Vice President of the late Southern Confederacy. Mr. Stephens, in the course of a long reported interview, advanced the opinion that Cæsarism is a bug-bear; alleging that the effects of such a system can be felt among us more by oppressive laws, which an executive is bound to enforce while they remain unrepealed, than by any number of re-elections of the latter, or any personal policy he may hold.

—Anticipations of another "Black Friday" in Wall street money matters we regard as highly improbable. We reach that conclusion chiefly from the published prominence given the manipulations of the gold clique of speculators. No sudden upheaval of values can take place at any rate, as made the memorable day referred to of such black memory. In no country but this would public gold gambling be tolerated. Any systematic combinations to inflate or depress the public business would be summarily suppressed, on the ground of conspiracy and attempting to defraud.

NEWS OF THE DAY.

—The State Assessors have visited fifty-seven out of the sixty counties in the state.

—Major Harry Gilmore, of Confederate cavalry fame, sells cabbages in Baltimore.

—The cattle plague is reported as prevalent at St. Louis.

—Jefferson Davis has resigned the Presidency of the Carolina Life Insurance Company.

—Some of the German Democrats of New York propose ex-Gov. Hoffman for the vacant seat of the Hon. James Brooks.

—The Democrats lately in opposition in San Francisco have healed their differences and united in a local convention.

—Capt. Edwin Holbrook, who was thrown from a street car in Louisville on Wednesday, died the day after. He was one of the pioneers of the tobacco trade in that city.

—The German government has ordered the expulsion from the country of all emigration agents who fail to prove that they are German subjects.

—Seddons and Chambers, whose proposed fight near Boston failed through a misunderstanding, were made happy Thursday by the stakeholder's decision, restoring the $1,000 which each had deposited.

—Mayor Havemeyer of New York having failed to persuade the Aldermen to hold a special meeting, will send to the Clerk of the Board on or before the 1st of September his nominations for the Commissionerships of Charitable Correction.

—A man nearly seventy years of age, named Dyer, residing at Cape Elizabeth, Me., was found in the road Thursday night with his neck broken. He had fallen from his wagon while intoxicated.

—Gov. Jewell, touching at Vienna on his way to St. Petersburgh, as United States Minister to Russia, enjoyed a complimentary dinner given by his New England friends.

—It is said that the French government has been compelled to abandon the intention of holding the trial of Marshal Bazaine at Compiegne. The town does not afford the necessary accommodations for the court. No other place has yet been designated.

—G. Johnson, a well-known citizen of Mobile, died on Wednesday on board the steamer Yazoo shortly before starting from Philadelphia for New Orleans. Mr. Johnson had been under treatment at St. Joseph's Hospital, Philadelphia, for some time.

—A blind man, aged seventy years, and his wife were run over at Bath, on the Hudson River Railroad, by one of the Troy and Albany trains, and instantly killed. They had crossed from one track to another to avoid an up train, and were struck by a down train.

—A party of ruffians assembled Thursday at Point Airy, on the lower part of Smith's Island, opposite Philadelphia, to witness a prize fight between John C. Donovan and James Murray. The police interfered and arrested the principals and ten other persons, who were held to answer.

REGULAR DISPATCHES TO DAILY FREEMAN

FOREIGN.

FRANCE.

Prohibiting a Republican Celebration.

Paris, August 29.—M. Beute, Minister of the Interior, has sent a circular to the prefects of the Departments of France directing them to prohibit any demonstration on the 4th of September, the anniversary of the proclamation of the republic.

RUSSIA.

A Fresh Insurrection in Khiva.

Tashkend, August 26.—Private letters report that an insurrection broke out in Khiva and Khokand during the absence of General Kauffman. General Verefkin quelled the rebellion and destroyed Khiva. Khokand is quiet. Russian exactions have been levied on 600 leaders of the late movement. It is reported that Yakoob Bey is dead.

SWEDEN.

Terrible Boiler Explosion.

Stockholm, August 29.—The boiler of a flax mill at Hilloroed, Sweden, exploded to-day with terrific force, destroying the mill and adjoining shops. There was no loss of life in the mill, owing to the absence of the workmen, but in the other buildings nine persons were killed and a large number injured. The King and Queen, who were at Fredensberg, a short distance from the scene of the explosion, hastened to the spot and directed that every measure deemed necessary for the relief of the wounded should be taken.

GREAT BRITAIN.

A Mournful Murmur from The Times.

London, August 29.—The Times this morning has an editorial on the iron question, the burthen of which is that one of the finest markets England ever possessed for the trade in iron is being gradually closed to her. Her disasters in this direction are not yet ended. The United States are competing successfully for the control of the iron traffic with Canada, South America and the West Indies. They have contested under immense natural disadvantages, but they have beaten England in spite of these. She cannot afford to idle and sleep away her time and waste her money while competing with thrifty, active and intelligent nations. The Times thinks much of the blame for the state of things it describes should fall upon the strikers and Trades Union.

THE ENDLESS TICHBORNE FIGHT.

London, August 29.—In the trial of the Tichborne claimant to-day a large number of witnesses from Wapping testified that the claimant was not Arthur Orton. Much excitement was created in court by the testimony of two witnesses, who swore that they had seen Orton and Castro together in Australia and they identified the claimant as the person who went under the name of Castro.

SPAIN.

Turn About Fair Play.

Madrid, August 29.—The Cartagena insurgents have liberated all Carlist prisoners in that city. The Carlists in turn liberate all Communist prisoners who happen to fall into their hands. Many of the Communists who have been implicated in the recent excesses are fleeing to the Carlist lines and enlisting.

A BAD CASE OF KRUPP.

Gen. Campos has twenty-four Krupp guns in position before Cartagena. Admiral Labos is at Gibraltar with the squadron which recently attempted the bombardment of Cartagena.

RECESS OF THE CORTES.

Madrid, August 29.—At a meeting of a majority of the Cortes to-day it was resolved to suspend the session of that body from the 1st of September till the 3d of November. It was also decided to pass a vote of confidence in the ministry before taking the recess.

LIVELY TIMES AT CARTAGENA.

Cartagena, August 29.—Last night Contreras Junta was deserted by Galnese, who has no confidence in the insurgent leaders.—The British Admiral Yelverton informs the rebels of his intention to move the vessels Vittoria and Almanza to Gibraltar. At a meeting of the rebels the majority decided to open fire from the forts in case the removal of the Spanish ships is attempted. The Admiral gives forty-eight hours' warning and threatens to bombard Cartagena if the forts fire upon the ships.

THE CARLISTS MARCHING ON TAFALA.

Madrid, August 29.—It is reported here that the Carlists are marching on Tafala.

CARRYING THE WAR INTO FRANCE.

Perpignan, August 29.—A few Spanish volunteers entered France near Monga in search of Carlists, but upon the peasants congregating to resist their advance soon recrossed the frontier.

THE GALLOWS.

An Execution at Cairo, Ill.

Cairo, Ill., August 29.—William C. Campbell, colored, was executed here to-day for the murder of Thomas Doyle, mate of the steamer Grand Tower, in April last.

TROTTING AT MIDDLETOWN.

Third Day's Races.

Middletown, August 29.—The first race to-day, for horses that had never beaten 2:50, was won by Geo. B. McDaniels. Time 2:37½, 2:32½, 2:33, 2:30. The second race was won by Commodore in 2:32, 2:33½ and 2:32.

BURIED IN A GRAVEL BANK.

Sad Occurrence at Ridge, Ill.

Cairo, August 29.—By the caving in of a bank at a gravel pit near the village of Ridge, on the Illinois Central Railroad, to-day a number of laborers were killed and wounded.—Three dead bodies were recovered to-night and it is understood several others were killed. The names of the parties whose dead bodies were recovered are unknown.

JOHN P. HALE'S HEALTH.

It is Reported Fast Failing.

Dover, N. H., August 29.—It is again reported to-day that John P. Hale is failing fast and cannot survive long. His daughter arrived from West Point on Wednesday, but he was able to recognize her only by her voice.—His eye-sight and voice are already gone.

TROUBLE AMONG THE BREWERS.

The Contemptuous Cincinnatians.

Cincinnati, August 29.—Messrs. Freyberg and Workman, who were recently expelled from the Chamber of Commerce for contempt of its authority, have made an application to the courts for a mandamus requiring the Board to restore them to the privileges of membership on the ground of irregularity in its proceedings.

THE TEMPERANCE MOVEMENT.

Organization of the State Committee.

Albany, August 29.—The Temperance State Committee appointed at the Tweddle Hall convention last June was permanently organized at a meeting held at Saratoga by the appointment of Rev. Samuel McKean, of Albany, Chairman, H. Bronson, of Amsterdam, Secretary. It was resolved to hold a State Convention early in October, to be composed of five delegates from each Assembly district, to to be chosen by electors who favor political action for prohibition without at present organizing an independent party. The call will appear in a few days.

PENNSYLVANIA.

Murder Near Wilkesbarre.

Wilkesbarre, Pa., August 29.—Last night in East Nanticoke, near this city, John McCarl and Joseph Sheen quarrelled while on a spree together and several shots were fired. This morning McCarl's body was found with three bullets through the head. Sheen was arrested and jailed.

THE MURDERER LOWENSTEIN.

His Examination at St. Catherines.

St. Catherines, Ont., August 29.—Emil Lowenstein, charged with murder near West Albany, was brought before Judge Lawdor to-day. The evidence was so conclusive that the Judge decided the prisoner should be extradited. The necessary papers will arrive from Ottawa in a day or two, when the prisoner will be handed over to the United States authorities.

STEAM ON THE CANALS.

A Final Trial to be Made.

Albany, August 29.—The commission appointed to examine and test devices and plans for the introduction of steam upon the canals of this state will meet at Syracuse on Tuesday, October 14th, 1873. Competitors for the award of $100,000 offered by the state are requested to have their respective boats at that point loaded with 200 tons and prepared for a final trial, which will be had between Syracuse and Utica.

TURBULENT ARKANSAS.

The Late Assassination and the Perry County War.

Little Rock, August 29.—The Coroner's jury who are holding an inquest over the body of the late Judge Mears, who was killed on Wednesday, have not yet reached a verdict. Gov. Baxter has offered a reward of $5,000 for the arrest of the assassin.

A vague rumor from Perry county states that a constable's posse, who had been hunting Mores and his gang in order to arrest them, came up with them on Thursday and a fight ensued, during which five persons were killed. The report needs confirmation.

THE FORT SILL AFFAIR.

No Authentic Information Received.

St. Louis, August 29.—The Evening Dispatch publishes authentic information from Fort Sill as late as August 21st, which is to the effect that on the 20th inst. General Davidson left Fort Sill with his cavalry, under orders of Gen. Augur, to suppress the Indian disturbances on the Texan frontier, leaving but three companies of troops to garrison the fort. The expedition was expected to be gone forty days. Nothing has been heard from there since the above date. The weakness of the garrison, with the knowledge that the Indians in that region are familiar with all that relates to the defense of the fort, causes much apprehension on the part of persons here who have friends and relatives at Fort Sill that the report from Waco, Texas, of its capture and the massacre of its inmates may be true.

PAINFUL RUMORS.

Parsons, Kansas, August 29.—There are rumors that amount almost to a certainty that a terrible massacre has been committed at Fort Sill, occasioned by the return of Santanta and Big Tree, recently prisoners in Texas.

ACCIDENT ON THE HUDSON RIVER RAILROAD.

Collison Between Express Trains.

Poughkeepsie, August 29.—The Second Atlantic Express train on the Hudson River Railroad ran into the rear of the First Atlantic Express one mile south of Montgomery this morning. The injured locomotive lies between the tracks and both are obstructed. Wm. Hildreth, the engineer, was badly hurt about the head; an unknown passenger had an arm taken off, and two others were slightly injured.

Peekskill, August 29.—The accident on the Hudson River Railroad near Fort Montgomery resulted in the following injuries: Mrs. Chapman or Chapin of New York, hurt about the head, not seriously; Edward W. Bedell of 147 East 52d street, New York, left arm broken; Mrs. Bedell, slightly hurt; (Mr. Bedell has been taken to New York;) William Hildreth, engineer of the second Atlantic, was badly hurt about the head.

The accident resulted, according to the statements, from a lack of vigilance in sending flagmen back from the first to the second Atlantic. The former had stopped south of Fort Montgomery tunnel to shove a detached freight train out of the way.

New York, August 29.—A large number of passengers on the trains stopped on the Hudson River Railroad by the accident near Anthony's Nose were brought to this city by an Albany steamboat. Their accounts are the same as before telegraphed. The engine and tender and an Adams Express car were smashed to pieces. A passenger car was telescoped so completely into a palace car they appeared to be one car. All the passengers agree that the escape from horrible slaughter was miraculous and that the railroad officials did everything to suppress the particulars of the accident being made public. It is believed engineer Hildreth is fatally injured.

RODMAN'S BIG STEAL.

His Arrest—Rumors of other Defalcations.

New York, August 29.—Nothing new has transpired to-day in the Brooklyn defalcation, except that Rodman was not arrested, as stated last night; but his residence is surrounded by detectives, who are instructed not to allow him to leave. He is reported, however, to be quite sick in his chamber. It is stated this evening that Mayor Powell has instructed the Corporation Counsel to issue a warrant for Rodman's arrest on the charge of embezzlement of the city funds. Cortland Sprague, the City Treasurer, will resign and a successor will be appointed immediately.

It is freely reiterated to-day by prominent officials of Brooklyn that if Rodman is arrested he will make most startling disclosures, involving several members of the ring of that city. The report that there is a deficiency in the accounts of the Board of City Works is entirely exploded, as that board handles no city money except water rents, which are covered into the treasury every day.

It is reported that a worthless check for $50,000, well-known in Wall street as the Van Saun check has found its way in the Brooklyn Trust Co., where it was counted good.

Early this evening a warrant for the arrest of M. F. Rodman, late Deputy Treasurer of Brooklyn, was issued by Judge Delmar and placed in the hands of Captain Terry of the police. Rodman was found at home, but although apparently sick was not confined to his bed. He was taken before Judge Delmar, but his counsel waived an examination on any charge that might be preferred against Rodman and offered to give bail for his appearance in any amount desired. His counsel also proffered a certificate from Dr. Watt to the effect that Rodman was seriously ill. The Judge declined accepting any bail and Rodman was taken to the station house. It is understood, however, that he will be allowed to go to his house in company with an officer.—A rumor is current to-night in Brooklyn that a defalcation has been discovered in the office of Tax Collector Burrows.

METROPOLITAN NEWS.

THE WOULD-BE NATHAN MURDERER.

Letters are printed from the Sheriff and Chief of Police of Sacramento, Cal., showing that Irving endeavored to get them to have him sent to New York over a month ago, he confessing to have been implicated in a Chatham street robbery, and finding that dodge unsuccessful he then sent letters to the Superintendent of Police here, stating that he could give important information relative to the Nathan murder, but his story was believed to be false in all its particulars. Judge Cardozo, who took an active part in endeavoring to find the murderer of Nathan, says there is no doubt that the real murderer is Forrester, who is now in prison, and in time he will be able to prove Forrester to be guilty of that atrocity.

WORKINGMEN AND THE FARMERS' MOVEMENT.

A mass meeting of workingmen's unions, under the auspices of the Working Men's Central Council, was held at Cooper Union to-night. At the opening of the meeting the attendance was average, but on the Chairman announcing that the principal speaker of the evening, Mr. Arch from England, had not arrived nor could he state when he was expected, a general murmur of disapprobation was manifested and nearly half the audience left. The Chairman then briefly addressed those present, urging on all working men a speedy co-operation with the farming community as the only method of frustrating the present ruinous monopoly and outrageous charges of transportation over all railroads.

Mr. Ferguson, President of the Cheap Transportation Association of Troy, followed and at once launched into a statistical statement of over charges on all products, by which not only farmers but workingmen were being ruined; but the audience grew tired of his figures and on a second rising of those present the speaker was compelled to cut down his address and finished with a strong appeal to the workingmen of the city to form cheap transportation associations and complete a solid co-operation with the farming interests; that the Legislature would be compelled to grant any of their legitimate demands; at the coming elections to discard all parties and cliques and return men to the Legislature who would not be deaf to the demands of the workingmen for cheap transportation and the universal adoption of the eight-hour system throughout the United States.

THE GREAT STORM.

Still Further Particulars.

Halifax, August 29.—Mail and telegraph details of the storm on Sunday night are being constantly received. The destruction of life and property on land and sea is frightful and far exceeds the estimate given. From all sections there are stories of houses and barns being blown down, crops destroyed and cattle killed. Such fearful havoc has not been known in Nova Scotia and Cape Breton for the past thirty years. At present no accurate idea of the loss, both to land property and shipping, can be formed, but will in all probability reach several million dollars. Already many lives are reported lost. There is too much reason to believe that many vessels were lost at sea with all hands. The fishermen on the eastern coast of the province have suffered severely, all having lost their boats, fishing tackle, etc., from Guysboro to Cape Canso. Vessels arriving in Halifax within the past few days report having passed large quantities of wreck stuff at sea.

In Guysboro county the destruction was immense. A number of new houses were blown down or injured, old ones were unroofed or stripped of their shingles, barns were raised in every direction and unroofed, fences were prostrated everywhere and everything moveable was twisted, turned and tumbled about. Forty-seven buildings are reported down at Manchester.

Reports from Canso, Crow Harbor, Land Point and other places state that the storm was frightful and caused a general ruin, which is nothing less than a public calamity, only to be effaced by time. At Goldenville the damage was also extensive. Stores, barns and crushing mills there and at Wine Harbor were destroyed. At Isaac's Harbor the gale made fearful havoc among the property of fishermen. Every fish store was swept away. The schooners Bonnie Bell, Renfew, Lord Burg and Russell are ashore. The Baptist meeting house in course of erection was totally destoyed. At Beaver Harbor fourteen houses and barns were blown to pieces, a vessel with a cargo was sunk and a number of fishing boats was blown to sea and lost.

At St. Peters, Cape Breton, several houses and barns were blown down and a church partially finished was demolished and the material scattered over two acres of ground. Men, women and children in this vicinity were in some instances killed and in others injured by the falling of houses, &c. Vessels drifted to sea and some were stranded on the shoals.

An American schooner arrived at Canso dismasted, with the loss of several men. Two dead bodies lashed to a spar were washed ashore at Tracadie. On the north side three or four dead bodies were found on Tuesday.—It is feared the wrecks and loss of life on that side of Prince Edward's Island have been enormous. Two American fishing schooners are reported to have gone down during the storm off the north cape of Prince Edward's Island, with all hands, forty in number.

In Baddock, Victoria county, C. B., thirty barns and houses were blown down within a radius of ten miles. Several dwelling houses were completely destroyed. One heavy house was lifted up bodily and carried twenty feet. A large, expensive bridge across the Baddock River is gone. The crops in Victoria county have suffered severely. The poor people have lost heavily and are much distressed and discouraged and know not what to do. A church in course of erection at Baddock was overturned and became a heap of ruins. Sixty-two buildings are said to have been blown down at Cape Canso during the storm.—Twenty-two dwelling houses were damaged at Goldenville.

The Annie C. Brown arrived this morning from Labrador and reports that on Sunday night last she was anchored off Entry Island in company with twenty-five or thirty craft, all dragging anchors. When the morning came none of them were in sight. It is supposed that they drifted down to the northern shore of Prince Edward's Island. If so a fearful loss of life may have ensued.

THE WEATHER.

To-Day's Probabilities.

AUTUMN IS AT THE DOOR!

THE FALL SEWING MUST BE COMMENCED?

Are You Properly Prepared?

We cannot offer you much in way of STITCHES, but are on hand to help you efficiently as possible by furnishing the

GOODS NOW WANTED

for outfits for your girls, clothing for your boys and all the various articles demanded for family comfort, housekeeping conveniences and the pleasant equipment of home. Our plans for the fall are:

To Keep a Better Stock

Than usual, to push our trade in handsome and substantial goods as rapidly as demand will justify, and to stand fast by the honored principle that has made our store popular and our business successful, viz.:

ONE PRICE TO ALL

And the fair truth as to quality of what we sell.

At the opening of the fall season we take occasion to correct some evident misapprehension as to our style of TRUSTING. We are not disposed to make

"CAST IRON RULES"

as to trade made by any of our well-known customers, and it is our wish and our interest to be obliging to all, but we MUST be understood as positively determined

NOT TO DO A CREDIT BUSINESS!

Such of our reliable customers as find the usual Thirty days a convenience, are entirely welcome to the time, if payment is promptly made, but we make no offer of running accounts and cannot consent to do anything but a strictly

CASH BUSINESS.

This is simply just to our trade and aside from convenience to ourselves, the maintenance of the principle is of real importance to our customers, for we cannot sell goods at the very close margins we now make if our profits are to be cut down by losses sure to come with any general credit trade.

Kingston, Saturday Morning, Aug. 30.

The expressed determination of the State Assessors to correct the abominable system of assessments in vogue is most commendable, if followed out to the letter. During a late visit of the board to a certain section, their opinion of matters under consideration is thus reported: "Outside of corporations, they say that nearly three-quarters of the tax paid on personal property is collected of widows and orphans. A man dies and his estate comes into the hands of executors or administrators, and down goes every cent of personal property on the tax book, often at its full value, while men by scores, with much more wealth, are not assessed at all."

The attempt of many moneyed people in this country to be over and exclusively aristocratic is very silly when looked at practically. Unless corruption is fully legalized, does the wealth of a man make him any different from his poorer fellows when taken before the bar of justice? Also does his individual vote amount to any more at the ballot box? Still many would-be aristocrats ape foreign titled rank. Observe the difference! Nobility by right of birth makes a man a law-maker of the realm; his opinions to be sought; his direct influence unbounded. In the United States money can buy much of personal import; but yet how shallow is the reality—all dross; no pure metal!

The delivery of letters from post-offices in populous places by carriers is very popular wherever tried, and is invariably adopted. It avoids frequent disappointment in running to the post-office after delayed expected letters—it does away with the tedious delay awaiting the distribution of mails—it uses up the most patience destroying practice of all, that is the habit of many, just ahead of you at the post-office delivering aperture, of asking for letters for a dozen or so different persons out of the general boxes from A to B. The system of carrier delivery also aids postal clerks greatly in their customary duties, where the force is small, as it necessarily gives them the time lost by constant inquiries for mail matter.

The Graphic, which, like most papers claiming to be run on common sense principles, takes no stock in the foolish talk about Cæsarism and disposes of the matter very curtly by demonstrating that President Grant has none of the qualifications requisite to make a Cæsar of him. Leaving its badinage, choosing to call it such, there is in its article a more serious question discussed, and it considerthoughtfully the subject of the length of the Presidential term. While it argues against third terms, claims the office should be held for but one term, and that the term should be six years. "One term of six years," it says, "with a wise and efficient civil service, is what the nation needs, and what, we trust, the present discussion will lead to." And from the attention given to the subject we are inclined to think the question of fixing the limit to one term of six or eight years will be a leading one in the national councils in the near future.

The ponderous London Times, however unwieldy it appears to us Americans, who like more sprightliness in our newspapers, is yet a very fair index of public sentiment in England, and when it expatiates on national or international subjects it is of England very Englishy. So when in a large and elaborate leader it dolefully drones out a song the burden of which is that England is losing control of the iron trade, we know that it speaks for the whole people, who are forced to confess that that country has lost its pre-eminence in that special branch of trade and that its younger but more active and enterprising competitor, the United States, is gradually monopolizing it. There is both cause for rejoicing and a warning to us in this. The Times lays the chief blame for the decline in the English iron trade to the strikers, and therein is our warning. We would do well to so arrange our wages question that disputes will not be likely to arise, and when they do arbitration and not violence should decide the matter.

Was it a Mistake?

The World correspondent from Norwalk, Conn., publishes in the list of fat men the name of Miss H. Williamson of Five Mile Row. Also the names of several ladies, married or single. These portly people of both sexes had a clambake out in good old Connecticut and, of course, enjoyed themselves *hugely*, as such huge specimens of humanity necessarily must. They averaged precisely two hundred and thirty and one-third pounds in weight. They aggregated over thirty-three thousand pounds; and there were only one hundred and forty-three of them, all told. One man was so heavy he had to be shipped as freight. None of the railroad or steamboat companies would take him except by the hundred. The others came on the cars with only five to the car-load.—But why are the women called fat men? Some hidden political meaning in this, no doubt. "Oh, that this too solid flesh would melt."

Tilton's French.

The editor of the Golden Age has just "dropped into poetry" and concludes each of his verses with the French motto

"Aimer, aimer, c'est a vivre."

The subject of the poem is the *grande passion*, love. Whereupon Dana of the Sun, who is no less eminent as a modern linguist than as an "attempted" martyr, indulges in a tilt on Tilton, and flatly tells him that he (Tilton) don't know French. The fault of which the "outraged" Sun complains is the putting a preposition before the last infinitive in the French line. We reluctantly admit the justice of Dana's criticism and are sorry to see any respectable infinitive treated in that way. "To love is to live" no doubt, but let us love and live grammatically, and not feast, like ghouls, on the horrible entrails of dismembered French.

Short Crops in Europe.

The Mark Lane Express, the organ of the grain and flour-dealing interest in England, states that the outlook touching the grain crop for the present year in Europe is very discouraging. Rye is deficient in France, Germany, Holland and Belgium. Austro-Hungary, which usually exports a vast amount of wheat and barley to other European countries, is said to be deficient in power to do so the present season, probably sending out about one-third the usual quantity. Trans-Atlantic necessity in the matter of food is, of course, our opportunity, as we almost always have a surplus for export, when prices abroad make exportation an object. At home, all accounts agree that we have at least an average crop of wheat, while the overplus of last year's crop of corn will be needed to make up this year's deficiency. So there will be no dead corn to drag down the general produce market. Now, while farmers complain and grumble, is nevertheless the time for them to ship grain. Even at the existing high rates for transportation, buyers will take their stock so as to leave a margin of profit. In addition to this we are about $50,000,000 better off than last year, as appears after striking a balance of imports *vs.* exports. Thus, there are two good elements in the situation as to bread-stuffs. Europe wants our surplus and can pay for it, and we have it to sell.

Approaching Imbecility.

Having kept up a close and constant watchfulness upon the career of funny folks for an extended term of years, we are able to specify the premonitory symptoms of their decline. Among the fatal signs of their swift-coming inanity and vapidness is the tendency to parody Poe's "Raven." When a comical genius who tickles ribs publicly for a living tries his hand at that his wife should look up his life insurance policy and his friends stop lending him money. His career is nearly closed, and oxygen gas will soon be superfluous in his case. The Danbury man has not exactly done this, but he is guilty of the next thing to it. The *pome* called "A Raving," copied by him from the Boston Commonwealth, is an *apros Poe* illustration. We are pained to our inmost liver to see this. Our sensations are much as we suppose they would have been at witnessing the unavailing slaughter at Balaklava, or a fat man trying to climb a slippery Po(l)e. It is a dreadful sacrifice of courage and manliness in an effort to accomplish the impossible. It awakes the memory of the noble Greeks who perished under the walls of Troy—on the outside. Upon the rock of that false, treacherous, tenacious raven how many fair and promising punsters have dashed themselves and died. Don't risk it, oh, ye gentle jokers, not even "Once upon a midnight dreary."

—Defalcations are the order of the day. A natural result of putting trust funds within the keeping of persons who desire large riches by speculation instead of slow toil.

—That monstrosity, a "fat man's clam bake," has taken place at Norwalk, Conn. No sudden deaths among the participants has since been reported.

—It is estimated that it takes $18.50 as the cost of a day's sojourn at Niagara Falls—counting the various toll fees with legitimate expenses. No wonder that this new tariff of rates causes a dull season at that heretofore popular resort.

—Politicians now begin to take the attention of people more by their hue and cry than during dog days, so called. If all dogs have their day, let people make it lively for self place seekers in conferring political preferment.

—Brooklyn remains very much excited over the heavy defalcation of its Deputy Treasurer, M. T. Rodman. For the time, the Goodrich murder case and the investigation into the Sheriff's accounts are quite overlooked. Also the interest in the appointment of a new Chief of Police.

—Every now and then a self-confessed Nathan murderer turns up. Investigation has heretofore pronounced all such to be pure unmitigated frauds, with interested personal objects in view for their lies. The last instance, from San Francisco, is regarded as being a scamp who wishes a free trip to New York.

—The New York Star has an article in which is asserted that the general use of pie, in particular among unwholesome eatables, is making us a nation of dyspeptics. The writer adds: "Dyspepsia is the condition that almost always precedes consumption, and more than three-fourths, and probably seven-eighths, of all the consumptives in adult life were dyspeptic in youth. There were 14,000 deaths in New York in 1872 attributable to diseases intimately connected with indigestion, and, if we take this city as the basis of a calculation for the whole country, the result is frightful."

—The Herald reporters, in interviewing prominent men as to their individual opinions about an assumed republican Cæsarism, ran across Alexander H. Stephens, former Vice President of the late Southern Confederacy. Mr. Stephens, in the course of a long reported interview, advanced the opinion that Cæsarism is a bug-bear; alleging that the effects of such a system can be felt among us more by oppressive laws, which an executive is bound to enforce while they remain unrepealed, than by any number of re-elections of the latter, or any personal policy he may hold.

—Anticipations of another "Black Friday" in Wall street money matters we regard as highly improbable. We reach that conclusion chiefly from the published prominence given the manipulations of the gold clique of speculators. No sudden upheaval of values can take place at any rate, as made the memorable day referred to of such black memory. In no country but this would public gold gambling be tolerated. Any systematic combinations to inflate or depress the public business would be summarily suppressed, on the ground of conspiracy and attempting to defraud.

SWEDEN.

Terrible Boiler Explosion.

STOCKHOLM, August 29.—The boiler of a flax mill at Hilloroed, Sweden, exploded to-day with terrific force, destroying the mill and adjoining shops. There was no loss of life in the mill, owing to the absence of the workmen, but in the other buildings nine persons were killed and a large number injured. The King and Queen, who were at Fredensberg, a short distance from the scene of the explosion, hastened to the spot and directed that every measure deemed necessary for the relief of the wounded should be taken.

GREAT BRITAIN.

A Mournful Murmur from The Times.

LONDON, August 29.—The Times this morning has an editorial on the iron question, the burthen of which is that one of the finest markets England ever possessed for the trade in iron is being gradually closed to her. Her disasters in this direction are not yet ended. The United States are competing successfully for the control of the iron traffic with Canada, South America and the West Indies. They have contested under immense natural disadvantages, but they have beaten England in spite of these. She cannot afford to idle and sleep away her time and waste her money while competing with thrifty, active and intelligent nations. The Times thinks much of the blame for the state of things it describes should fall upon the strikers and Trades Union.

THE ENDLESS TICHBORNE FIGHT.

LONDON, August 29.—In the trial of the Tichborne claimant to-day a large number of witnesses from Wapping testified that the claimant was not Arthur Orton. Much excitement was created in court by the testimony of two witnesses, who swore that they had seen Orton and Castro together in Australia and they identified the claimant as the person who went under the name of Castro.

SPAIN.

Turn About Fair Play.

MADRID, August 29.—The Cartagena insurgents have liberated all Carlist prisoners in that city. The Carlists in turn liberate all Communist prisoners who happen to fall into their hands. Many of the Communists who have been implicated in the recent excesses are fleeing to the Carlist lines and enlisting.

A BAD CASE OF KRUPP.

RECESS OF THE CORTES.

MADRID, August 29.—At a meeting of a majority of the Cortes to-day it was resolved to suspend the session of that body from the 1st of September till the 3d of November. It was also decided to pass a vote of confidence in the ministry before taking the recess.

LIVELY TIMES AT CARTAGENA.

CARTAGENA, August 29.—Last night Contreras Junta was deserted by Galnese, who has no confidence in the insurgent leaders.—The British Admiral Yelverton informs the rebels of his intention to move the vessels Vittoria and Almanza to Gibraltar. At a meeting of the rebels the majority decided to open fire from the forts in case the removal of the Spanish ships is attempted. The Admiral gives forty-eight hours' warning and threatens to bombard Cartagena if the forts fire upon the ships.

BURIED IN A GRAVEL BANK.

Sad Occurrence at Ridge, Ill.

CAIRO, August 29.—By the caving in of a bank at a gravel pit near the village of Ridge, on the Illinois Central Railroad, to-day a number of laborers were killed and wounded.—Three dead bodies were recovered to-night and it is understood several others were killed. The names of the parties whose dead bodies were recovered are unknown.

JOHN P. HALE'S HEALTH.

It is Reported Fast Failing.

DOVER, N. H., August 29.—It is again reported to-day that John P. Hale is failing fast and cannot survive long. His daughter arrived from West Point on Wednesday, but he was able to recognize her only by her voice.—His eye-sight and voice are already gone.

TROUBLE AMONG THE BREWERS.

The Contemptuous Cincinnatians.

CINCINNATI, August 29.—Messrs. Freyberg and Workman, who were recently expelled from the Chamber of Commerce for contempt of its authority, have made an application to the courts for a mandamus requiring the Board to restore them to the privileges of membership on the ground of irregularity in its proceedings.

THE TEMPERANCE MOVEMENT.

Organization of the State Committee.

ALBANY, August 29.—The Temperance State Committee appointed at the Tweddle Hall convention last June was permanently organized at a meeting held at Saratoga by the appointment of Rev. Samuel McKean, of Albany, Chairman, H. Bronson, of Amsterdam, Secretary. It was resolved to hold a State Convention early in October, to be composed of five delegates from each Assembly district, to to be chosen by electors who favor political action for prohibition without at present organizing an independent party. The call will appear in a few days.

PENNSYLVANIA.

Murder Near Wilkesbarre.

THE MURDERER LOWENSTEIN.

His Examination at St. Catherines.

ST. CATHERINES, Ont., August 29.—Emil Lowenstein, charged with murder near West Albany, was brought before Judge Lawdor to-day. The evidence was so conclusive that the Judge decided the prisoner should be extradited. The necessary papers will arrive from Ottawa in a day or two, when the prisoner will be handed over to the United States authorities.

STEAM ON THE CANALS.

A Final Trial to be Made.

ALBANY, August 29.—The commission appointed to examine and test devices and plans for the introduction of steam upon the canals of this state will meet at Syracuse on Tuesday, October 14th, 1873. Competitors for the award of $100,000 offered by the state are requested to have their respective boats at that point loaded with 200 tons and prepared for a final trial, which will be had between Syracuse and Utica.

TURBULENT ARKANSAS.

The Late Assassination and the Perry County War.

LITTLE ROCK, August 29.—The Coroner's jury who are holding an inquest over the body of the late Judge Mears, who was killed on Wednesday, have not yet reached a verdict. Gov. Baxter has offered a reward of $5,000 for the arrest of the assassin.

A vague rumor from Perry county states that a constable's posse, who had been hunting Mores and his gang in order to arrest them, came up with them on Thursday and a fight ensued, during which five persons were killed. The report needs confirmation.

THE FORT SILL AFFAIR.

No Authentic Information Received.

ST. LOUIS, August 29.—The Evening Dispatch publishes authentic information from Fort Sill as late as August 21st, which is to the effect that on the 20th inst. General Davidson left Fort Sill with his cavalry, under orders of Gen. Augur, to suppress the Indian disturbances on the Texan frontier, leaving but three companies of troops to garrison the fort. The expedition was expected to be gone forty days. Nothing has been heard from there since the above date. The weakness of the garrison, with the knowledge that the Indians in that region are familiar with all that relates to the defense of the fort, causes much apprehension on the part of persons here who have friends and relatives at Fort Sill that the report from Waco, Texas, of its capture and the massacre of its inmates may be true.

PAINFUL RUMORS.

PARSONS, Kansas, August 29.—There are rumors that amount almost to a certainty that a terrible massacre has been committed at Fort Sill, occasioned by the return of Santanta and Big Tree, recently prisoners in Texas.

ACCIDENT ON THE HUDSON RIVER RAILROAD.

Collison Between Express Trains.

POUGHKEEPSIE, August 29.—The Second Atlantic Express train on the Hudson River Railroad ran into the rear of the First Atlantic Express one mile south of Montgomery this morning. The injured locomotive lies between the tracks and both are obstructed. Wm. Hildreth, the engineer, was badly hurt about the head; an unknown passenger had an arm taken off, and two others were slightly injured.

PEEKSKILL, August 29.—The accident on the Hudson River Railroad near Fort Montgomery resulted in the following injuries: Mrs. Chapman or Chapin of New York, hurt about the head, not seriously; Edward W. Bedell of 147 East 52d street, New York, left arm broken; Mrs. Bedell, slightly hurt; (Mr. Bedell has been taken to New York;) William Hildreth, engineer of the second Atlantic, was badly hurt about the head.

The accident resulted, according to the statements, from a lack of vigilance in sending flagmen back from the first to the second Atlantic. The former had stopped south of Fort Montgomery tunnel to shove a detached freight train out of the way.

NEW YORK, August 29.—A large number of passengers on the trains stopped on the Hudson River Railroad by the accident near Anthony's Nose were brought to this city by an Albany steamboat. Their accounts are the same as before telegraphed. The engine and tender and an Adams Express car were smashed to pieces. A passenger car was telescoped so completely into a palace car they appeared to be one car. All the passengers agree that the escape from horrible slaughter was miraculous and that the railroad officials did everything to suppress the particulars of the accident being made public. It is believed engineer Hildreth is fatally injured.

RODMAN'S BIG STEAL.

His Arrest—Rumors of other Defalcations.

NEW YORK, August 29.—Nothing new has transpired to-day in the Brooklyn defalcation, except that Rodman was not arrested, as stated last night; but his residence is surrounded by detectives, who are instructed not to allow him to leave. He is reported, however, to be quite sick in his chamber. It is stated this evening that Mayor Powell has instructed the Corporation Counsel to issue a warrant for Rodman's arrest on the charge of embezzlement of the city funds. Cortland Sprague, the City Treasurer, will resign and a successor will be appointed immediately.

It is freely reiterated to-day by prominent officials of Brooklyn that if Rodman is arrested he will make most startling disclosures, involving several members of the ring of that city. The report that there is a deficiency in the accounts of the Board of City Works is entirely exploded, as that board handles no city money except water rents, which are covered into the treasury every day.

It is reported that a worthless check for $50,000, well-known in Wall street as the Van Saun check has found its way in the Brooklyn Trust Co., where it was counted good.

Early this evening a warrant for the arrest of M. F. Rodman, late Deputy Treasurer of Brooklyn, was issued by Judge Delmar and placed in the hands of Captain Terry of the police. Rodman was found at home, but although apparently sick was not confined to his bed. He was taken before Judge Delmar, but his counsel waived an examination on any charge that might be preferred against Rodman and offered to give bail for his appearance in any amount desired. His counsel also proffered a certificate from Dr. Watt to the effect that Rodman was seriously ill. The Judge declined accepting any bail and Rodman was taken to the station house. It is understood, however, that he will be allowed to go to his house in company with an officer.—A rumor is current to-night in Brooklyn that a defalcation has been discovered in the office of Tax Collector Burrows.

METROPOLITAN NEWS.

THE WOULD-BE NATHAN MURDERER.

Letters are printed from the Sheriff and Chief of Police of Sacramento, Cal., showing that Irving endeavored to get them to have him sent to New York over a month ago, he confessing to have been implicated in a Chatham street robbery, and finding that dodge unsuccessful he then sent letters to the Superintendent of Police here, stating that he could give important information relative to the Nathan murder, but his story was believed to be false in all its particulars. Judge Cardozo, who took an active part in endeavoring to find the murderer of Nathan, says there is no doubt that the real murderer is Forrester, who is now in prison, and in time he will be able to prove Forrester to be guilty of that atrocity.

WORKINGMEN AND THE FARMERS' MOVEMENT.

A mass meeting of workingmen's unions, under the auspices of the Working Men's Central Council, was held at Cooper Union to-night. At the opening of the meeting the attendance was average, but on the Chairman announcing that the principal speaker of the evening, Mr. Arch from England, had not arrived nor could he state when he was expected, a general murmur of disapprobation was manifested and nearly half the audience left. The Chairman then briefly addressed those present, urging on all working men a speedy co-operation with the farming community as the only method of frustrating the present ruinous monopoly and outrageous charges of transportation over all railroads.

Mr. Ferguson, President of the Cheap Transportation Association of Troy, followed and at once launched into a statistical statement of over charges on all products, by which not only farmers but workingmen were being ruined; but the audience grew tired of his figures and on a second rising of those present the speaker was compelled to cut down his address and finished with a strong appeal to the workingmen of the city to form cheap transportation associations and complete a solid co-operation with the farming interests; that the Legislature would be compelled to grant any of their legitimate demands; at the coming elections to discard all parties and cliques and return men to the Legislature who would not be deaf to the demands of the workingmen for cheap transportation and the universal adoption of the eight-hour system throughout the United States.

THE GREAT STORM.

Still Further Particulars.

HALIFAX, August 29.—Mail and telegraph details of the storm on Sunday night are being constantly received. The destruction of life and property on land and sea is frightful and far exceeds the estimate given. From all sections there are stories of houses and barns being blown down, crops destroyed and cattle killed. Such fearful havoc has not been known in Nova Scotia and Cape Breton for the past thirty years. At present no accurate idea of the loss, both to land property and shipping, can be formed, but will in all probability reach several million dollars. Already many lives are reported lost. There is too much reason to believe that many vessels were lost at sea with all hands. The fishermen on the eastern coast of the province have suffered severely, all having lost their boats, fishing tackle, etc., from Guysboro to Cape Canso. Vessels arriving in Halifax within the past few days report having passed large quantities of wreck stuff at sea.

In Guysboro county the destruction was immense. A number of new houses were blown down or injured, old ones were unroofed or stripped of their shingles, barns were raised in every direction and unroofed, fences were prostrated everywhere and everything moveable was twisted, turned and tumbled about. Forty-seven buildings are reported down at Manchester.

Reports from Canso, Crow Harbor, Land Point and other places state that the storm was frightful and caused a general ruin, which is nothing less than a public calamity, only to be effaced by time. At Goldenville the damage was also extensive. Stores, barns and crushing mills there and at Wine Harbor were destroyed. At Isaac's Harbor the gale made fearful havoc among the property of fishermen. Every fish store was swept away. The schooners Bonnie Bell, Renfew, Lord Burg and Russell are ashore. The Baptist meeting house in course of erection was totally destoyed. At Beaver Harbor fourteen houses and barns were blown to pieces, a vessel with a cargo was sunk and a number of fishing boats was blown to sea and lost.

At St. Peters, Cape Breton, several houses and barns were blown down and a church partially finished was demolished and the material scattered over two acres of ground. Men, women and children in this vicinity were in some instances killed and in others injured by the falling of houses, &c. Vessels drifted to sea and some were stranded on the shoals.

An American schooner arrived at Canso dismasted, with the loss of several men. Two dead bodies lashed to a spar were washed ashore at Tracadie. On the north side three or four dead bodies were found on Tuesday.—It is feared the wrecks and loss of life on that side of Prince Edward's Island have been enormous. Two American fishing schooners are reported to have gone down during the storm off the north cape of Prince Edward's Island, with all hands, forty in number.

In Baddock, Victoria county, C. B., thirty barns and houses were blown down within a radius of ten miles. Several dwelling houses were completely destroyed. One heavy house was lifted up bodily and carried twenty feet. A large, expensive bridge across the Baddock River is gone. The crops in Victoria county have suffered severely. The poor people have lost heavily and are much distressed and discouraged and know not what to do. A church in course of erection at Baddock was overturned and became a heap of ruins. Sixty-two buildings are said to have been blown down at Cape Canso during the storm.—Twenty-two dwelling houses were damaged at Goldenville.

The Annie C. Brown arrived this morning from Labrador and reports that on Sunday night last she was anchored off Entry Island in company with twenty-five or thirty craft, all dragging anchors. When the morning came none of them were in sight. It is supposed that they drifted down to the northern shore of Prince Edward's Island. If so a fearful loss of life may have ensued.

THE WEATHER.

To-Day's Probabilities.

In New England, the Middle States and lower lake region the pressure will diminish, with slightly rising temperature, light southeasterly to southwesterly winds and clear or partly cloudy weather during the day.

AUTUMN IS AT THE DOOR!

THE FALL SEWING MUST BE COMMENCED?

Are You Properly Prepared?

We cannot offer you much in way of STITCHES, but are on hand to help you efficiently as possible by furnishing the

GOODS NOW WANTED

for outfits for your girls, clothing for your boys and all the various articles demanded for family comfort, housekeeping conveniences and the pleasant equipment of home. Our plans for the fall are:

To Keep a Better Stock

Than usual, to push our trade in handsome and substantial goods as rapidly as demand will justify, and to stand fast by the honored principle that has made our store popular and our business successful, viz.:

ONE PRICE TO ALL

And the fair truth as to quality of what we sell.

At the opening of the fall season we take occasion to correct some evident misapprehension as to our style of TRUSTING. We are not disposed to make

"CAST IRON RULES"

as to trade made by any of our well-known customers, and it is our wish and our interest to be obliging to all, but we MUST be understood as positively determined

NOT TO DO A CREDIT BUSINESS!

Such of our reliable customers as find the usual Thirty days a convenience, are entirely welcome to the time, if payment is promptly made, but we make no offer of running accounts and cannot consent to do anything but a strictly

CASH BUSINESS.

This is simply just to our trade and aside from convenience to ourselves, the maintenance of the principle is of real importance to our customers, for we cannot sell goods at the very close margins we now make if our profits are to be cut down by losses sure to come with any general credit trade.

LOCAL INTELLIGENCE.

CITY NOTES.

—A merchant uptown who has been studying home economy goes round his store nights, and brushes the sugar from the feet of the flies.

—Styles Saunders found the other morning in his travels a large vegetable which be called a mushroom. He sold it to a dealer in vegetables, but some think this mushroon will turn out a puff ball.

—The up express train on the Hudson River Railroad which brings the mail was half an hour late on Friday, owning to the accident at Fort Montgomery.

—A young lady gives us this recipe for making a little fun in the parlor. She says it's real nice, but we don't know whether she has tried it or not: Two persons are necessary for the proper conducting of the game, and it's better for the parties to be a young lady and gentleman. Get a stick of candy, and let each person take an end in his or her mouth. Then commence sucking, and the one who gets to the middle first wins the game. When they get to the middle they stay there as long as they please.

Change of Hour.

Until further notice the evening service in the Rondout Presbyterian Church, both Sabbath and week-day evenings, will commence at 7½ o'clock, beginning on Sunday next.

Advance in Price.

The Delaware & Hudson Canal Company have advanced the price of coal at this point fifty cents per ton.

The City Hall Contract.

At the meeting of the Common Council last night the contract for the mason work of the new City Hall was awarded to John Gill of this city; that for the carpenter work to W. B. Mickens, also of this city. Total contract price of the work $55,358.

Public School No. 7.

The Public School in District No. 7 will open on Monday next, September 1st, under charge of C. M. Ryon as Principal, with the corps of teachers the same as last year, with the exceptions of the German and music departments. It is quite desirable that scholars who propose attending during the fall term be present on the first day of the term.

School Opening.

Studies will be resumed in St. Mary's School on Monday. The Christian Brothers are not here yet, but will be in a short time. The school has been painted and cleaned thoroughly, and is now a specimen of neatness. The clergy residing in St. Mary's will visit it on Monday and every month will conduct examinations. The system and discipline will be for the advantage of the pupils.

An Inventive Genius.

Mr. Abm. Stokes, of this town, is somewhat of an inventive genius and believes in doing head work. While farmers generally found it almost impossible to cradle their oats, Mr. Stokes took his cradle and had the finger nearest the blade moved a little nearer the next finger; then inserted another finger nearer the blade. By this arrangement he was enabled to cradle the shortest kind of oats without any difficulty.—*New Paltz Independent.*

Consistency.

On the occasion of the firemen's excursion from this city to Iona Island on Wednesday last there was also a Brooklyn Sunday School there on an excursion, and one of our excursionists tells how surprised he was at seeing by the dancing platform a banner bearing on one side the title of the school, "Hope Chapel," while on the other an order of dancing was displayed. It struck the Rondouter as funny.

Personal.

John A. Gross, one of the firm of Gross, Blackwell & Co., Excelsior Iron Works, has gone to New Brunswick for a few weeks for his health. Mr. Gross has been unwell some time with fever.

As McAllister & Polley's Minstrel band went up street yesterday his old acquaintances recognized Bush, the big blower, formerly the Opera House man, and many a hoodlum lifted up his voice and cried "Oh, Bush."

A Railroad Amputation.

A number of boys were playing about the railroad track in Higginsville on Thursday and had placed a lot of stones upon it. A little boy about ten years of age named McGuire was engaged in removing them and while doing so a train came along and before he could remove his right arm passed over his hand, crushing all the fingers and fearfully mangling them. It is to be hoped such accidents will prove warnings to careless youth who endanger their lives and limbs recklessly playing about the railroad.

Hudson River Ministerial Association.

The sixteenth session of the Hudson River Ministerial Association will be held at West Hurley on Monday and Tuesday, September 15th and 16th. The services will be as follows: On Monday evening, opening sermon by Rev. J. Y. Bates. Tuesday, prayer meeting at 8.30 A. M. Essays—Size of Districts, Rev. J. P. Hermance; The Tree of Life, Rev. S. D. Brown; Extempore Preaching, Rev. E. Tinker. Discussion—The Comparative Condition of Protestantism and Roman Catholicism—Rev. C. C. Keys, Rev. E. Lewis. Tuesday evening a temperance mass meeting will be addressed by Revs. J. C. Hoyt, D. Gibson, J. P. Swift. An excursion to the Overlook is proposed in connection with the meeting.

Music in the Air.

The people in the upper part of the city were entertained Thursday night by the pleasant strains of Burger's band, while John street was enlivened with the most lugubrious sounds that ever emanated from the lungs of human beings. Quite naturally the dogs bemoaned their miserable fate during this strife of the musical folks, and several tom cats with hair leaning toward their fronts and tail erect, poised themselves in tragic attitudes on the adjacent roofs. These cats chanted a well-known requiem that went wailing over the tree tops, while in the distance could be heard the squalling sounds of infants, that shrilly rose above the nearer thunderings of the ten pin alley. *Requiescat.*

Middletown Sabbath School Excursion

A special train of twelve cars and an engine has been procured for the excursion of the Margaretville, Lumberville, New Kingston, Griffin's Corners, Halcott, Red Kill and Pine Hill Sabbath Schools, which is to take place on Thursday, Sept. 11th, 1873, over the N. Y., K. & S. R. R. Tickets for the round trip one dollar. The expenses of the excursion are to be borne by the several schools participating, and the proceeds are to be divided among the schools in proportion to the number of tickets sold by each school. Arrangements have been made to secure more cars if found necessary for the accommodation of ticket holders. The train will leave Dean's Corners at 8½ o'clock, A. M.

St. Mary's Church.

There will be a Grand Solemn High Mass in St. Mary's Church to-morrow, at half-past ten A. M. It will be sung by Rev. Wm. Sheehy, of Lismore, Ireland. He will be assisted by Rev. John McGivney as deacon, Mr. James Conolly as sub-deacon, and Rev. Father Newman as Master of Ceremonies. Right Rev. Bishop Quinlan of Mobile, Ala., will preach at this mass. He will appear also at the early masses to solicit aid for the completion of his cathedral and for the erection of churches in his extensive but impoverished diocese. The collections taken up at all the services to-morrow will be given him for these purposes. He arrived last evening and is stopping with Rev. Father O'Farrell.

A New Reading Room.

A reading room is to be organized uptown, and we hope it will not be confined to a particular class or club, but will be founded on a liberal plan, that will allow all people, whatever their views may be on certain questions, to have access to its rooms; and before the citizens uptown subscribe for this matter we hope they will take the trouble to have it understood this room shall be for the improvement of all, not simply a select organization. A general reading room is much needed uptown, and would do a great deal of good to a class of people that cannot be reached in any other way. Let us by all means have a reading room, but not under the auspices of such and such a society, where members will be bored by the passage of extraordinary resolutions, or where highfalutin conceit is the order of the day. Let's have a reading room uncontaminated with anything else.

Wonderful Well.

There's a man uptown who attempted to dig a well on his premises. He commenced the 4th of July and that well isn't finished yet. Remarkable as it may seem, two of the workmen have died since the digging commenced. One of them was drowned in the Binnewaters, though how the other one died is not known. Another of the workmen was injured on the Midland Railroad before he had finished working, while another has the rheumatics so bad he is doubled up like a jack-knife. There's one man left, Charles Fisher, and he has made so much money out of this well, that he has become a successful speculator in hogs, chickens and potatoes. Some say, however, the intimacy with his employer has made this Fisher a first-class speculator. This well is going on at Higginsville, and hardpan has been struck in the pockets of the owner, but has not yet been reached in the excavation.

Putting up a Ladder.

Did our readers ever notice a man attempt to put up a ladder against the side of a building? The ladder is always about thirty feet long, just ten feet longer that one man can handle alone. The confiding householder wants to get on the roof to put on a shingle or repair a leader or fix the chimney, so the ladder is procured and brought to the spot and laid lengthways on the ground, at right angles to the side of the house. Then the citizen goes to the end which is to rest against the eaves. He picks it up, and commences to raise it, round by round, till he stands about at the centre of the ladder, with his hands at full length above him, holding up the ladder, which treacherously swings and sways above him. This is the crisis. The ladder gets top heavy and the man can't get it up any farther, while to let it down would be a confession of weakness that he wouldn't make for the Shah's diamond-crusted overcoat. So he stands there, with the perspiration starting from his forehead and his mind racked with torturing thoughts, while he indulges in language that would be unseemly in a prayer-meeting. Pretty soon his wife comes out and asks him why he acts so and what makes him so long getting that ladder up, but she don't lend him a hand, but looks on in quiet unconcern. Then the man gets desperate and gives a sudden, energetic spring, to get the ladder over the centre, when the crash comes. The ladder topples over and downward, the man's head goes between two of the rounds and he feels as if a couple of thunderbolts had rambled down his shoulders and arms. He picks himself up out of the ruins and gazes around. The ladder lies comfortably in the flower bed, having knocked down a rose-bush and spoiled his wife's pet geranium, sent the dog howling away with a new curve in his tail and come within an inch and a half of knocking his wife's bustle into its component parts of papers and things. Then the wife goes into the house, with a howl at him, "well, what a man!" and he retires for arnica and sticking plaster. Then he gets a couple of men to put up the ladder and do the necessary repairing, and wonders, while he looks on contemplatively, why he didn't think of it before.

How it was Done—Peculiar Sale.

There was quite a lively time at the Court House Friday, arising from the sale of a lot of land on the road between Rondout and Wilbur, by the referee, Josiah Dubois. Perhaps to understand this matter thoroughly it would be well to give a history of the case, commencing somewhere about 1861, when one Joseph Leonard contracted with the Delaware & Hudson Canal Company to buy the lot of land above mentioned. Leonard was in the mercantile business with one James Flannigan. In 1864 Leonard died, leaving his wife Bridget and several small children. After his death Bridget went in partnership with Flannigan, taking the place of her husband, but soon after this she married one Charles O'Reilly, when the partnership was immediately dissolved. Bridget and Charles then employed Mr. E. S. Wood, clerk in the office of Lawton & Stebbins, to commence proceedings against the Delaware & Hudson Canal Co. to compel them to carry out the contract concerning the lot, and execute a deed therefor to Leonard's heirs on payment of moneys due thereon. Judge Lawton granted an order directing the Company to execute the deed, and in the same order appointed Bridget special guardian for the children, to execute a bond and mortgage to the company for the balance of purchase money. The mortgage was duly executed in September, 1872.

The children failed to pay the interest on the mortgage, and the Company, with Mr. Wood as their attorney, foreclosed it. The sale was put down for Friday, August 29th, the lot to be sold for cash to the highest bidder. On the day of sale, Mr. Wood was present, Mr. C. R. Champlain as guardian *ad litem* of the infant, Mr. Charles O'Reilly and Charles M. Preston, who appeared to buy for James Flannigan. The referee, Dubois, put up the property and sold it to Preston as the highest bidder for $1,500. Preston had no cash with him, only a check for the amount. He asked for time to get his check cashed at the Savings Bank, but the referee refused to give the time he requested, and declared it was no sale. Finally a young lawer standing by handed Wood the $1,500 cash, but the referee refused to take it, and again put the property up for sale. This time it was struck off to O'Reilly for $1,500, and then O'Reilly found he had no money, nothing but certified checks. Then there was a time, and scurrying to and fro to get the money. The Sheriff ran to get a check cashed at the bank, and was in such haste he slipped on the pavement and nearly broke his arm. The referee, however, quietly awaited until the money could be got, and then finished the sale to O'Reilly. Now why this action of the referee in regard to Preston, who stood alone in the fight, and the liberality allowed to O'Reilly and his friends? We don't understand the matter, but the whole may be worthy of perusal.

—We understand the managers of the two Hudson River Agricultural and Driving Park Associations have decided not to hold fairs this fall. The contract for fencing their respective grounds and building their tracks has not been given out.—*Poughkeepsie Eagle.*

The Powell Accident.

The Powell arrived here last evening at 7 o'clock. The crew were immediately set to work unloading the freight. Measurements of the broken shaft were made by Mr. Knowlson, of the firm of Knowlson & Kelly, machinists, and dispatched to New York, where the shaft will be duplicated. The broken shaft is on the starboard side, and the break is about five feet from the paddle wheel. It is fortunate that it was discovered in the nick of time. The stockholders of the Citizens' steamboat company should consider themselves under obligations to Hiram G. Teson, the chief engineer of the Powell. It has been customary with Mr. Teson to make repeated examinations of the machinery of his boat on each trip, and it was during one of these examinations that the break was discovered. After watching the revolutions of the shaft for some minutes he became satisfied that the boat could not reach Troy unless it were towed up. Captain Abrams was notified and the Powell was headed for Rhinebeck dock. A delay of half an hour in the discovery of the break might have resulted in the loss of the starboard wheel, the partial destruction of the engine and the dismantlement of the boat. The accident was fortunate in this respect. But even in its best phase it is unwelcome. In the words of Modie, Capt. Abrams' superior officer, "It will bust the dividends." The estimated loss, including cost of new shaft, loss of business, claims for decay of perishable fruit which was shipped from New York by the Powell Tuesday evening, and expense of chartering another boat, is $10,000. This is a good deal of money to take out of the profits of the company. Some of the stockholders met last evening at the company's office on the dock and discussed the accident. The highest praise was accorded to Captain Abrams and the other officers of the Powell for their efficient action after the discovery of the break. The Powell, loaded with New York freight, started down this morning at two o'clock in tow of the Utica.

The Argus says that John McEwen, who came up on the day boat, saw the Powell being towed up by the Utica. He distinguished a human body under the guards on the stanchions of the Powell, and several officers of the steamer he was on were also looking at the body. How it came there is a mystery. The Albany coroners have been notified.—*Troy Times.*

The Powell was towed up the river to this place on Wednesday evening, and now lies at McEntee & Dillon's dock. Her shaft will be temporarily repaired by welding, and it is hoped the boat will be ready for work this forenoon.

Dedicating Glen Evans.

The Jersey City Times of last Tuesday contains a long report of the ceremonies connected with the dedication of Glen Evans, a romantic spot on Overlook Mountain, named in honor of Wm. T. Evans, a resident of that city. From it we make the following extracts:

"Although much has been written about the beauties and traditions of these historical Catskills, and through each section has had its particular trumpeter, yet, for wild scenery, grand views and salubrious climate, the location of this Overlook Mountain House cannot be excelled. Situated on the highest peak of the Catskills; so located as to receive every breeze, and yet be devoid of disagreeable drafts; patronized by our educated and refined class, and presided over by John E. Lasher, Esq., one of the most genial and accommodating of landlords; with our thermometer ranging from fifty-five to seventy in the hottest of August days, only one who enjoys its pleasures can appreciate the great change from the heat, the dust and clamor of the city.

"But though, like Emerson in a philosophical essay, we are away up in the clouds, isolated indeed from the inhabitants of the lower regions, and as near the heavens as perhaps some of us may get, yet we find a vast fund of amusement in our nightly hops, daily walks, pic-nics, &c. One of the most pleasant and enjoyable affairs of the season took place on the 16th inst., consisting of the dedication of Glen Evans, a beautiful spot on the top of Overlook, named in honor of one of Jersey City's sons, Wm. T. Evans, Esq., whose family are spending the summer here. His many friends were called to order by Henry J. Hopper, Esq., who acted as master of ceremonies, and opened the proceedings in a happy speech, remarking we were there assembled from many parts of this glorious Union to dedicate this beautiful glen to Wm. T. Evans, Esq., one of New Jersey's noblest sons. He closed with the sentiment that as Glen Evans, with its winding entrances and immense boulders of rock, with its shady trees and rustic seats, presents to the visitor one of the most attractive resorts among these romantic hills, so may Mr. Evans and his devoted partner in life live long and happy, and as each year adds to their honors, here spend a season of rest, free from the cares and trials of city life.

"A corps of polite waiters from the Overlook being on hand, made the company perfectly at home with the handsome collation served, and after a free discussion of Delmonico, Mr. Evans responded to his health, thanking the company for the honor they had so unexpectedly conferred upon him; but saying he felt very much as a Western orator on a similar occasion, who being called upon for a speech, started out grandly with "Thirty years ago, Mr. Chairman, this lovely vale was a howling wilderness. I repeat, sir," &c., which he did, and after a third repetition added, "and I wish to heaven it was so now. Such were almost his feelings when called upon for a response. With pleasant anecdote and feeling sentiment he continued at some length, closing by again thanking his friends for the honor conferred, and hoping we might all meet many a year hereafter to enjoy the beauties of Overlook and share the delights of Glen Evans."

A song composed by Miss Carrie B. LeRow, teacher of elocution in Vassar College, and Dr. Chapman of Brooklyn, was read by the former. Its extreme length prevents our copying it.

A toast was given—"The Catskills and their Traditions"—which was responded to in a lengthy and humorous speech by Hon. Dexter A. Hawkins of New York.

The next sentiment was: "The memory of our absent friends—while many are seeking health in other scenes, some have found a sweeter rest than Overlook could give."

Miss C. B. LeRow feelingly responded, alluding to one who had contributed greatly to our pleasure last year, and read the last poem composed by Miss R. W. Easterbook, entitled "Rare Justice," humorously detailing the experience of a turtle and crab, ending in a broil and fry.

To the toast, "The ladies; though Overlookers, their charms will never be overlooked," Mr. W. F. Brower, of New York, responded in a happy speech.

Miss LeRow then recited a poem of her own composition, "Charge of the Overlookers" (after Tennyson).

"The last regular toast was 'the health of our genial Lasher—may his rations ever be as good as his temper is unruffled," which elicited a brief reply, for Lasher, like great men and Grant, is of a taciturn kind. Volunteer toasts, stray healths and the popping of conundrums, varied by college songs and stories, whiled away the evening but too swiftly, till midnight chimed her warning, and with the Doxology, our gay company parted, with feelings of good will to all, with memories of Overlook rendered yet more endearing, and the praises of Glen Evans still ringing in their ears."

—The Baptist Sunday School, of Hudson, made an excursion to Saratoga Springs the other day. They chartered a train of nine cars, at an expense of $900, charged one dollar and a half for a ticket, took the scholars free, and of course made money by the operation. Railroad companies are beginning to object to this plan, alleging that cars are overcrowded on such occasions.

Washington Hall To-Night.

Mc Allister & Polley's Minstrels gave a fine entertainment at Music Hall last evening.—This evening they perform at Washington Hall, and from the excellent reputation they enjoy we are safe in promising all who attend a fine evening's enjoyment. They announce an exceedingly full and rich programme.

The Whitehall Times says of them: The debut of this troupe was one of the events of the season. Long before seven o'clock last Monday evening, the hall entrance was full of people, all waiting the opening of the doors. The evening was very stormy, the rain pouring down in perfect torrents, still the very first of Whitehall people were out. Ladies were enveloped in huge waterproof cloaks. Gentlemen carried umbrellas, and quite a number wore rubber overcoats; many were more or less wet from the inclemency of the weather, nevertheless all were anxious to give "Hersh" Polley and his companions a good send off. By 7 1-2 o'clock Anderson Hall was packed full of human beings, that was ever within its walls before. Not even a standing place was to be obtained after that time. Over two hundred were turned away, there being no room for them within the densely packed hall. The entertainment was of a superior order, nothing vulgar or obscene being allowed on the stage by the management.

—J. H. Rosenguest, cashier of the National Bank of Tarrytown, by means of a revolver caused his own death Thursday. Intimations of defalcation are made, but as yet there has been nothing developed proving that conclusion. Further developments may be awaited.

—Another search under the direction of Warden Hubbell and Inspector Graves, at Sing Sing prison, Thursday afternoon, resulted in the finding of the two missing convicts Van Houten and Clark, who were stowed away beneath the lumber house floor.

—The Coxsackie News observes that "picnics are beginning to agitate the minds of the young people" thereabouts. "Beginning!" that word is well put. Everywhere else along the river pic-nics have almost ceased "beginning" to end for the season.

—At a meeting of cigar-makers held Wednesday in Poughkeepsie to take action in regard to the patent cigar-box which the national authorities propose to introduce, a set of resolutions addressed to the Commissioner of Internal Revenue objecting to the new box was passed.

—A group of "lady killers," in the habit of lounging about the depot when trains arrive and depart, were photographed unbeknown to them Wednesday. Six pictures of each will be made; one will be hung up in the depot and the other five can be obtained by the originals upon application to Special Officer Cushing. The negatives will be preserved and in time to come duplicates can be secured.—Thus will be perpetuated the countenances of half a score of young men whose highest aim is to lounge about public places where they can be seen of women. In this connection we remark that the farmers of Washington and Saratoga counties are anxious to secure farm hands and that they will pay liberal wages.—*Troy Times.*

Benefit Monday Night.

It is announced by Mr. Washburn that a sparring exhibition will be held at the Opera House on Saturday and Monday evenings, between Arthur Chambers and Patsey Sheppard. As Chambers is in Dacotah and Sheppard not to be found, it is impossible that they will appear as announced. Mr. Sheridan has taken the trouble to visit New York and has engaged the following talent for the benefit at Washington Hall on Monday evening in addition to those already advertised: Bill Murphy and Mike Mc Cann will have a set-to with the gloves. All pugilists are invited to take part with Patsey Evans, the Rondout giant. Billy Fields, now working with Jimmy Welch at the 34th street theatre, New York, will also appear on the occasion. Firemen don't forget the GOBLET for the best conundrum. Mr. James Robinson, cornet soloist, lately from California, will also appear. James Neary, lately of the Opera House, will also take part.

FIREMEN.

Large, Elegant Peaches.

The celebrated caterer to the epicurean public, J. T. Merritt, has come to town with a lot of LARGE ELEGANT PEACHES. The mere mention of this fact will command a rush to see the choice fruit displayed so temptingly on the shelves of the HUGUENOT SALOON. Large, elegant, luscious Peaches! Oh, my!

Hamilton Club.

The Opera House.

Don't fail to see the great sparring match at the Opera House on Saturday and Monday evenings, between Arthur Chambers, the English light weight champion, and Patsey Sheppard, the American light weight champion.

The Shooting Gallery.

Opposite the Opera House, closes at eleven o'clock on Saturday evening of this week on account of engagements elsewhere. Now gentlemen, keep the bell ringing and "jolly joker" hopping. Target practice is not only essential in becoming a "good shot," but is advantageous in other respects, inasmuch as it trains and educates the eye for professional and mechanical services, is beneficial to the nervous system, hence is conducive to health.

Just opened, a new lot of pound Calicos at M. WEIL'S.

Excise Notice.

The next regular monthly meeting of the Board of Excise of the city of Kingston will be held at Washington Hall, on Monday, September 1st, from 2 till 4 P. M.

Shooting Gallery.

D. R. FRENCH has removed his famous SHOOTING GALLERY from upper Kingston to 17 Lackawanna St., opposite Opera House. All you fellows who think you can hit the BULL'S EYE drop in and try your skill.

ANOTHER ARTICLE OF COMMON HOUSEHOLD USE SUPERSEDED.—Associated with the earlier recollections of a great many men and women is the memory of the Bath brick and emery stone wherewith the knives and forks, and pans and kettles, and other kitchen articles were at stated times "scoured up." That primitive mode prevails to-day in thousands of families who have never used Sapolio. But once let Sapolio be used for this purpose and that housewife never wants Bath brick or emery stone any more. Sapolio not only scours off all rust and tarnish; it brightens, bestows a polish as brilliant as new, and does it in one tenth the time required by any other substance. Sold everywhere. Housekeepers, try it.

Renne's Pain-Killing Magic Oil is clean, sweet and pleasant to use, and cures headache, toothache, ague in the face and jaws, earache, sore eyes, erysipelas, rheumatic pains, cramps, cold in the head, sore throat, &c. Try it, reader. Sold by R. Deyo and all druggists in Rondout and Kingston.

A CLERGYMAN writing to a friend says, "My voyage to Europe is indefinitely postponed. I have discovered the 'fountain of health' on this side of the Atlantic. Three bottles of Peruvian Syrup have rescued me from the pangs of the fiend Dyspepsia." Dyspeptics should drink from this fountain.

Cure for Piles.

Vincent's Magic pile remedy is the most perfect cure for Purites or itching Piles ever offered to the public. It is *warranted* to give relief to the worst cases in forty-eight hours after the commencement of its use, if the directions for using are complied with. Price 50 cents per box. G. E. Vincent, Proprietor, Catskill, N. Y. At Wholesale and Retail by Van Deusen Brothers.

To the Firemen of Kingston.

A SILVER GOBLET will be given to the fireman who furnishes the best CONUNDRUM on Monday evening, Sept. 1st, at Washington Hall, on the occasion of Sheridan and Welch's benefit. The Goblet can be seen at Dunn's jewelry store.

Hecker's Farina

Peaches.

The peaches that our citizens buy from those travelling peach orchards in our streets for their families must be rather a poor luxury.—Roasting and drying in the sun all day is enough to kill the best fruit that grows.

LOCAL INTELLIGENCE.

CITY NOTES.

—A merchant uptown who has been studying home economy goes round his store nights, and brushes the sugar from the feet of the flies.

—Styles Saunders found the other morning in his travels a large vegetable which he called a mushroom. He sold it to a dealer in vegetables, but some think this mushroon will turn out a puff ball.

—The up express train on the Hudson River Railroad which brings the mail was half an hour late on Friday, owning to the accident at Fort Montgomery.

—A young lady gives us this recipe for making a little fun in the parlor. She says it's real nice, but we don't know whether she has tried it or not: Two persons are necessary for the proper conducting of the game, and it's better for the parties to be a young lady and gentleman. Get a stick of candy, and let each person take an end in his or her mouth. Then commence sucking, and the one who gets to the middle first wins the game. When they get to the middle they stay there as long as they please.

Change of Hour.

Until further notice the evening service in the Rondout Presbyterian Church, both Sabbath and week-day evenings, will commence at 7½ o'clock, beginning on Sunday next.

Advance in Price.

The Delaware & Hudson Canal Company have advanced the price of coal at this point fifty cents per ton.

The City Hall Contract.

At the meeting of the Common Council last night the contract for the mason work of the new City Hall was awarded to John Gill of this city; that for the carpenter work to W. B. Mickens, also of this city. Total contract price of the work $55,358.

Public School No. 7.

The Public School in District No. 7 will open on Monday next, September 1st, under charge of C. M. Ryon as Principal, with the corps of teachers the same as last year, with the exceptions of the German and music departments. It is quite desirable that scholars who propose attending during the fall term be present on the first day of the term.

School Opening.

Studies will be resumed in St. Mary's School on Monday. The Christian Brothers are not here yet, but will be in a short time. The school has been painted and cleaned thoroughly, and is now a specimen of neatness. The clergy residing in St. Mary's will visit it on Monday and every month will conduct examinations. The system and discipline will be for the advantage of the pupils.

An Inventive Genius.

Mr. Abm. Stokes, of this town, is somewhat of an inventive genius and believes in doing head work. While farmers generally found it almost impossible to cradle their oats, Mr. Stokes took his cradle and had the finger nearest the blade moved a little nearer the next finger; then inserted another finger nearer the blade. By this arrangement he was enabled to cradle the shortest kind of oats without any difficulty.—*New Paltz Independent.*

Consistency.

On the occasion of the firemen's excursion from this city to Iona Island on Wednesday last there was also a Brooklyn Sunday School there on an excursion, and one of our excursionists tells how surprised he was at seeing by the dancing platform a banner bearing on one side the title of the school, "Hope Chapel," while on the other an order of dancing was displayed. It struck the Rondouter as funny.

Personal.

John A. Gross, one of the firm of Gross, Blackwell & Co., Excelsior Iron Works, has gone to New Brunswick for a few weeks for his health. Mr. Gross has been unwell some time with fever.

As McAllister & Polley's Minstrel band went up street yesterday his old acquaintances recognized Bush, the big blower, formerly the Opera House man, and many a hoodlum lifted up his voice and cried "Oh, Bush."

A Railroad Amputation.

A number of boys were playing about the railroad track in Higginsville on Thursday and had placed a lot of stones upon it. A little boy about ten years of age named McGuire was engaged in removing them and while doing so a train came along and before he could remove his right arm passed over his hand, crushing all the fingers and fearfully mangling them. It is to be hoped such accidents will prove warnings to careless youth who endanger their lives and limbs recklessly playing about the railroad.

Hudson River Ministerial Association.

The sixteenth session of the Hudson River Ministerial Association will be held at West Hurley on Monday and Tuesday, September 15th and 16th. The services will be as follows: On Monday evening, opening sermon by Rev. J. Y. Bates. Tuesday, prayer meeting at 8.30 A. M. Essays—Size of Districts, Rev. J. P. Hermance; The Tree of Life, Rev. S. D. Brown; Extempore Preaching, Rev. E. Tinker. Discussion—The Comparative Condition of Protestantism and Roman Catholicism—Rev. C. C. Keys, Rev. E. Lewis. Tuesday evening a temperance mass meeting will be addressed by Revs. J. C. Hoyt, D. Gibson, J. P. Swift. An excursion to the Overlook is proposed in connection with the meeting.

Music in the Air.

The people in the upper part of the city were entertained Thursday night by the pleasant strains of Burger's band, while John street was enlivened with the most lugubrious sounds that ever emanated from the lungs of human beings. Quite naturally the dogs bemoaned their miserable fate during this strife of the musical folks, and several tom cats with hair leaning toward their fronts and tail erect, poised themselves in tragic attitudes on the adjacent roofs. These cats chanted a well-known requiem that went wailing over the tree tops, while in the distance could be heard the squalling sounds of infants, that shrilly rose above the nearer thunderings of the ten pin alley. *Requiescat.*

Middletown Sabbath School Excursion

A special train of twelve cars and an engine has been procured for the excursion of the Margaretville, Lumberville, New Kingston, Griffin's Corners, Halcott, Red Kill and Pine Hill Sabbath Schools, which is to take place on Thursday, Sept. 11th, 1873, over the N. Y., K. & S. R. R. Tickets for the round trip one dollar. The expenses of the excursion are to be borne by the several schools participating, and the proceeds are to be divided among the schools in proportion to the number of tickets sold by each school. Arrangements have been made to secure more cars if found necessary for the accommodation of ticket holders. The train will leave Dean's Corners at 8½ o'clock, A. M.

St. Mary's Church.

There will be a Grand Solemn High Mass in St. Mary's Church to-morrow, at half-past ten A. M. It will be sung by Rev. Wm. Sheehy, of Lismore, Ireland. He will be assisted by Rev. John McGivney as deacon, Mr. James Conolly as sub-deacon, and Rev. Father Newman as Master of Ceremonies. Right Rev. Bishop Quinlan of Mobile, Ala., will preach at this mass. He will appear also at the early masses to solicit aid for the completion of his cathedral and for the erection of churches in his extensive but impoverished diocese. A New Reading Room.

A reading room is to be organized uptown, and we hope it will not be confined to a particular class or club, but will be founded on a liberal plan, that will allow all people, whatever their views may be on certain questions, to have access to its rooms; and before the citizens uptown subscribe for this matter we hope they will take the trouble to have it understood this room shall be for the improvement of all, not simply a select organization. A general reading room is much needed uptown, and would do a great deal of good to a class of people that cannot be reached in any other way. Let us by all means have a reading room, but not under the auspices of such and such a society, where members will be bored by the passage of extraordinary resolutions, or where highfalutin conceit is the order of the day. Let's have a reading room uncontaminated with anything else.

Wonderful Well.

There's a man uptown who attempted to dig a well on his premises. He commenced the 4th of July and that well isn't finished yet. Remarkable as it may seem, two of the workmen have died since the digging commenced. One of them was drowned in the Binnewaters, though how the other one died is not known. Another of the workmen was injured on the Midland Railroad before he had finished working, while another has the rheumatics so bad he is doubled up like a jack-knife. There's one man left, Charles Fisher, and he has made so much money out of this well, that he has become a successful speculator in hogs, chickens and potatoes. Some say, however, the intimacy with his employer has made this Fisher a first-class speculator. This well is going on at Higginsville, and hardpan has been struck in the pockets of the owner, but has not yet been reached in the excavation.

Putting up a Ladder.

Did our readers ever notice a man attempt to put up a ladder against the side of a building? The ladder is always about thirty feet long, just ten feet longer that one man can handle alone. The confiding householder wants to get on the roof to put on a shingle or repair a leader or fix the chimney, so the ladder is procured and brought to the spot and laid lengthways on the ground, at right angles to the side of the house. Then the citizen goes to the end which is to rest against the eaves. He picks it up, and commences to raise it, round by round, till he stands about at the centre of the ladder, with his hands at full length above him, holding up the ladder, which treacherously swings and sways above him. This is the crisis. The ladder gets top heavy and the man can't get it up any farther, while to let it down would be a confession of weakness that he wouldn't make for the Shah's diamond-crusted overcoat. So he stands there, with the perspiration starting from his forehead and his mind racked with torturing thoughts, while he indulges in language that would be unseemly in a prayer-meeting. Pretty soon his wife comes out and asks him why he acts so and what makes him so long getting that ladder up, but she don't lend him a hand, but looks on in quiet unconcern. Then the man gets desperate and gives a sudden, energetic spring, to get the ladder over the centre, when the crash comes. The ladder topples over and downward, the man's head goes between two of the rounds and he feels as if a couple of thunderbolts had rambled down his shoulders and arms. He picks himself up out of the ruins and gazes around. The ladder lies comfortably in the flower bed, having knocked down a rose-bush and spoiled his wife's pet geranium, sent the dog howling away with a new curve in his tail and come within an inch and a half of knocking his wife's bustle into its component parts of papers and things. Then the wife goes into the house, with a howl at him, "well, what a man!" and he retires for arnica and sticking plaster. Then he gets a couple of men to put up the ladder and do the necessary repairing, and wonders, while he looks on contemplatively, why he didn't think of it before.

How it was Done—Peculiar Sale.

There was quite a lively time at the Court House Friday, arising from the sale of a lot of land on the road between Rondout and Wilbur, by the referee, Josiah Dubois. Perhaps to understand this matter thoroughly it would be well to give a history of the case, commencing somewhere about 1861, when one Joseph Leonard contracted with the Delaware & Hudson Canal Company to buy the lot of land above mentioned. Leonard was in the mercantile business with one James Flannigan. In 1864 Leonard died, leaving his wife Bridget and several small children. After his death Bridget went in partnership with Flannigan, taking the place of her husband, but soon after this she married one Charles O'Reilly, when the partnership was immediately dissolved. Bridget and Charles then employed Mr. E. S. Wood, clerk in the office of Lawton & Stebbins, to commence proceedings against the Delaware & Hudson Canal Co. to compel them to carry out the contract concerning the lot, and execute a deed therefor to Leonard's heirs on payment of moneys due thereon. Judge Lawton granted an order directing the Company to execute the deed, and in the same order appointed Bridget special guardian for the children, to execute a bond and mortgage to the company for the balance of purchase money. The mortgage was duly executed in September, 1872.

The children failed to pay the interest on the mortgage, and the Company, with Mr. Wood as their attorney, foreclosed it. The sale was put down for Friday, August 29th, the lot to be sold for cash to the highest bidder. On the day of sale, Mr. Wood was present, Mr. C. R. Champlain as guardian *ad litem* of the infant, Mr. Charles O'Reilly and Charles M. Preston, who appeared to buy for James Flannigan. The referee, Dubois, put up the property and sold it to Preston as the highest bidder for $1,500. Preston had no cash with him, only a check for the amount. He asked for time to get his check cashed at the Savings Bank, but the referee refused to give the time he requested, and declared it was no sale. Finally a young lawer standing by handed Wood the $1,500 cash, but the referee refused to take it, and again put the property up for sale. This time it was struck off to O'Reilly for $1,500, and then O'Reilly found he had no money, nothing but certified checks. Then there was a time, and scurrying to and fro to get the money. The Sheriff ran to get a check cashed at the bank, and was in such haste he slipped on the pavement and nearly broke his arm. The referee, however, quietly awaited until the money could be got, and then finished the sale to O'Reilly. Now why this action of the referee in regard to Preston, who stood alone in the fight, and the liberality allowed to O'Reilly and his friends? We don't understand the matter, but the whole may be worthy of perusal.

—We understand the managers of the two Hudson River Agricultural and Driving Park Associations have decided not to hold fairs this fall. The contract for fencing their respective grounds and building their tracks has not been given out.—*Poughkeepsie Eagle.*

The Powell Accident.

The Powell arrived here last evening at 7 o'clock. The crew were immediately set to work unloading the freight. Measurements of the broken shaft were made by Mr. Knowlson, of the firm of Knowlson & Kelly, machinists, and dispatched to New York, where the shaft will be duplicated. The broken shaft is on the starboard side, and the break is about five feet from the paddle wheel. It is fortunate that it was discovered in the nick of time. The stockholders of the Citizens' steamboat company should consider themselves under obligations to Hiram G. Teson, the chief engineer of the Powell. It has been customary with Mr. Teson to make repeated examinations of the machinery of his boat on each trip, and it was during one of these examinations that the break was discovered. After watching the revolutions of the shaft for some minutes he became satisfied that the boat could not reach Troy unless it were towed up. Captain Abrams was notified and the Powell was headed for Rhinebeck dock. A delay of half an hour in the discovery of the break might have resulted in the loss of the starboard wheel, the partial destruction of the engine and the dismantlement of the boat. The accident was fortunate in this respect. But even in its best phase it is unwelcome. In the words of Modie, Capt. Abrams' superior officer, "It will bust the dividends." The estimated loss, including cost of new shaft, loss of business, claims for decay of perishable fruit which was shipped from New York by the Powell Tuesday evening, and expense of chartering another boat, is $10,000. This is a good deal of money to take out of the profits of the company. Some of the stockholders met last evening at the company's office on the dock and discussed the accident. The highest praise was accorded to Captain Abrams and the other officers of the Powell for their efficient action after the discovery of the break. The Powell, loaded with New York freight, started down this morning at two o'clock in tow of the Utica.

The Argus says that John McEwen, who came up on the day boat, saw the Powell being towed up by the Utica. He distinguished a human body under the guards on the stanchions of the Powell, and several officers of the steamer he was on were also looking at the body. How it came there is a mystery. The Albany coroners have been notified.—*Troy Times.*

The Powell was towed up the river to this place on Wednesday evening, and now lies at McEntee & Dillon's dock. Her shaft will be temporarily repaired by welding, and it is hoped the boat will be ready for work this forenoon.

Dedicating Glen Evans.

The Jersey City Times of last Tuesday contains a long report of the ceremonies connected with the dedication of Glen Evans, a romantic spot on Overlook Mountain, named in honor of Wm. T. Evans, a resident of that city. From it we make the following extracts:

"Although much has been written about the beauties and traditions of these historical Catskills, and through each section has had its particular trumpeter, yet, for wild scenery, grand views and salubrious climate, the location of this Overlook Mountain House cannot be excelled. Situated on the highest peak of the Catskills; so located as to receive every breeze, and yet be devoid of disagreeable drafts; patronized by our educated and refined class, and presided over by John E. Lasher, Esq., one of the most genial and accommodating of landlords; with our thermometer ranging from fifty-five to seventy in the hottest of August days, only one who enjoys its pleasures can appreciate the great change from the heat, the dust and clamor of the city.

"But though, like Emerson in a philosophical essay, we are away up in the clouds, isolated indeed from the inhabitants of the lower regions, and as near the heavens as perhaps some of us may get, yet we find a vast fund of amusement in our nightly hops, daily walks, pic-nics, &c. One of the most pleasant and enjoyable affairs of the season took place on the 16th inst., consisting of the dedication of Glen Evans, a beautiful spot on the top of Overlook, named in honor of one of Jersey City's sons, Wm. T. Evans, Esq., whose family are spending the summer here. His many friends were called to order by Henry J. Hopper, Esq., who acted as master of ceremonies, and opened the proceedings in a happy speech, remarking we were there assembled from many parts of this glorious Union to dedicate this beautiful glen to Wm. T. Evans, Esq., one of New Jersey's noblest sons. He closed with the sentiment that as Glen Evans, with its winding entrances and immense boulders of rock, with its shady trees and rustic seats, presents to the visitor one of the most attractive resorts among these romantic hills, so may Mr. Evans and his devoted partner in life live long and happy, and as each year adds to their honors, here spend a season of rest, free from the cares and trials of city life.

"A corps of polite waiters from the Overlook being on hand, made the company perfectly at home with the handsome collation served, and after a free discussion of Delmonico, Mr. Evans responded to his health, thanking the company for the honor they had so unexpectedly conferred upon him; but saying he felt very much as a Western orator on a similar occasion, who being called upon for a speech, started out grandly with "Thirty years ago, Mr. Chairman, this lovely vale was a howling wilderness. I repeat, sir," &c., which he did, and after a third repetition added, "and I wish to heaven it was so now. Such were almost his feelings when called upon for a response. With pleasant anecdote and feeling sentiment he continued at some length, closing by again thanking his friends for the honor conferred, and hoping we might all meet many a year hereafter to enjoy the beauties of Overlook and share the delights of Glen Evans."

A song composed by Miss Carrie B. LeRow, teacher of elocution in Vassar College, and Dr. Chapman of Brooklyn, was read by the former. Its extreme length prevents our copying it.

A toast was given—"The Catskills and their Traditions"—which was responded to in a lengthy and humorous speech by Hon. Dexter A. Hawkins of New York.

The next sentiment was: "The memory of our absent friends—while many are seeking health in other scenes, some have found a sweeter rest than Overlook could give."

Miss C. B. LeRow feelingly responded, alluding to one who had contributed greatly to our pleasure last year, and read the last poem composed by Miss R. W. Easterbook, entitled "Rare Justice," humorously detailing the experience of a turtle and crab, ending in a broil and fry.

To the toast, "The ladies; though Overlookers, their charms will never be overlooked," Mr. W. F. Brower, of New York, responded in a happy speech.

Miss LeRow then recited a poem of her own composition, "Charge of the Overlookers" (after Tennyson).

"The last regular toast was 'the health of our genial Lasher—may his rations ever be as good as his temper is unruffled,' which elicited a brief reply, for Lasher, like great men and Grant, is of a taciturn kind. Volunteer toasts, stray healths and the popping of conundrums, varied by college songs and stories, whiled away the evening but too swiftly, till midnight chimed her warning, and with the Doxology, our gay company parted, with feelings of good will to all, with memories of Overlook rendered yet more endearing, and the praises of Glen Evans still ringing in their ears."

—The Baptist Sunday School, of Hudson, made an excursion to Saratoga Springs the other day. They chartered a train of nine cars, at an expense of $900, charged one dollar and a half for a ticket, took the scholars free, and of course made money by the operation. Railroad companies are beginning to object to this plan, alleging that cars are overcrowded on such occasions.

Washington Hall To-Night.

Mc Allister & Polley's Minstrels gave a fine entertainment at Music Hall last evening.—This evening they perform at Washington Hall, and from the excellent reputation they enjoy we are safe in promising all who attend a fine evening's enjoyment. They announce an exceedingly full and rich programme.

The Whitehall Times says of them: The debut of this troupe was one of the events of the season. Long before seven o'clock last Monday evening, the hall entrance was full of people, all waiting the opening of the doors. The evening was very stormy, the rain pouring down in perfect torrents, still the very first of Whitehall people were out. Ladies were enveloped in huge waterproof cloaks. Gentlemen carried umbrellas, and quite a number wore rubber overcoats; many were more or less wet from the inclemency of the weather, nevertheless all were anxious to give "Hersh" Polley and his companions a good send off. By 7 1-2 o'clock Anderson Hall was packed full of human beings, that was ever within its walls before. Not even a standing place was to be obtained after that time. Over two hundred were turned away, there being no room for them within the densely packed hall. The entertainment was of a superior order, nothing vulgar or obscene being allowed on the stage by the management.

ANOTHER ARTICLE OF COMMON HOUSEHOLD USE SUPERSEDED.—Associated with the earlier recollections of a great many men and women is the memory of the Bath brick and emery stone wherewith the knives and forks, and pans and kettles, and other kitchen articles were at stated times "scoured up." But once let Sapolio be used for this purpose and that housewife never wants Bath brick or emery stone any more. Sapolio not only scours off all rust and tarnish; it brightens, bestows a polish as brilliant as new, and does it in one tenth the time required by any other substance. Sold everywhere. AYER'S HAIR VIGOR,

FOR RESTORING GRAY HAIR

To its Natural Vitality and Color.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR by long and extensive use, has proven that it stops the falling of the hair immediately often renews the growth, and always surely restores its color, when faded or gray It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty.—Thus brashy weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and stablished; thin hair thickens; and faded or gray hair resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

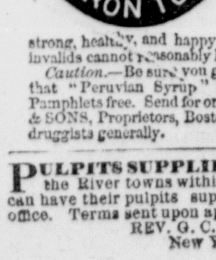

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

THE GREAT SOUTH AMERICAN

BLOOD PURIFIER

JURUBEBA

Is the most powerful cleanser, strengthener and remover of Glandular Obstructions known to *Materia Medica*.

It is specially adapted to constitutions "worn down" and debilitated by the warm weather of Spring and Summer, when the blood is not in active circulation, consequently gathering impurities from sluggishness and imperfect action of the secretive organs, and is manifested by Tumors, Eruptions, Blotches, Boils, Pustules, Scrofula, &c., &c.

When weary and languid from overwork, and dullness, drowsiness and inertia take the place of energy and vigor, the system needs a *Tonic* to build it up and help the Vital Forces to regain their recuperative power.

In the heat of Summer, frequently the *Liver* and *Spleen* do not properly perform their functions; the Uterine and Urinary Organs are inactive, producing weakness of the stomach and intestines and a predisposition to bilious derangement.

DR. WELLS'

EXTRACT OF JURUBEBA

Is prepared directly from the SOUTH AMERICAN PLANT, and is peculiarly suited to all these difficulties; it will cleanse the VITIATED BLOOD, strengthen the LIFE-GIVING POWERS, and REMOVE ALL OBSTRUCTIONS from IMPAIRED AND ENFEEBLED Organs.

It should be freely taken, as Jurubeba is pronounced by medical writers the most efficient PURIFIER, TONIC and DEOBSTRUENT known in the whole range of medicinal plants.

Neither the legislature, canal board, canal appraisers, nor any person or persons acting in behalf of the state, shall audit, allow or pay any claim which, as between citizens of the state, would be barred by lapse of time. The limitation of existing claims shall begin to run from the adoption of this section; but this provision shall not be construed to revive claims already barred by existing statutes, nor to repeal any statute fixing the time within which claims shall be presented or allowed, nor shall it extend to any claims duly presented within the time allowed by law, and prosecuted with due diligence from the time of such presentment. CONCURRENT RESOLUTIONS proposing amendments to article three of the constitution.

Resolved (if the assembly concur), That sections one, four, five, six, seven and eight of article three of the constitution be amended so as to read as follows:

ARTICLE III.

SECTION 1. The legislative power of the state shall be vested in a senate and assembly.

§ 4. An enumeration of the inhabitants of the state shall be made under the direction of the legislature, in the year one thousand eight hundred and seventy-five, and in every tenth year thereafter.

§ 5. The assembly shall consist of one hundred and twenty-eight members elected for one year. The members of assembly shall be apportioned among the several counties of the state, by the legislature, as nearly as may be, according to the number of their respective inhabitants, excluding aliens, and shall be chosen by single districts. The assembly districts shall remain as at present organized until after the enumeration of the inhabitants of the state in the year eighteen hundred and seventy-five. The legislature, at its first session after the return of every enumeration, shall apportion the members of assembly among the several counties of the state, in manner aforesaid, and the board of supervisors in such counties as may be entitled under such apportionment to more than one member, except the city and county of New York, and in said city and county the board of aldermen of said city shall assemble at such times as the legislature making such apportionment shall prescribe and divide their respective counties into assembly districts, each of which districts shall consist of convenient and contiguous territory equal to the number of members of assembly to which such counties shall be entitled, and shall cause to be filed in the offices of the secretary of state and the clerks of their respective counties a description of such districts, specifying the number of each district, and the population thereof, according to the last preceding enumeration, as near as can be ascertained, and the apportionment and districts shall remain unaltered until another enumeration shall be made as herein provided. No town shall be divided in the formation of assembly districts. Every county heretofore established and separately organized, except the county of Hamilton, shall always be entitled to one member of the assembly, and no new county shall be hereafter erected unless its population shall entitle it to a member. The county of Hamilton shall elect with the county of Fulton until the population of the county of Hamilton shall, according to the ratio, be entitled to a member. But the legislature may abolish the said county of Hamilton and annex the territory thereof to some other county or counties. Nothing in this section shall prevent division at any time of counties and towns, and the erection of new towns and counties by the legislature.

§ 6. Each member of the legislature shall receive for his service an annual salary of one thousand five hundred dollars. The members of either house shall also receive the sum of one dollar for every ten miles they shall travel in going to and returning from their place of meeting, once in each session, on the most usual route. Senators, when the senate alone is convened in extraordinary session, or when serving as members of the court for the trial of impeachments, and such members of the assembly, not exceeding nine in number, as shall be appointed managers of an impeachment, shall receive an additional allowance of ten dollars a day.

§ 7. No member of the legislature shall receive any civil appointment within this state, or the senate of the United States, from the governor, the governor and senate, or from the legislature, or from any city government, during the time for which he shall have been elected; and all such appointments, and all votes given for any such member for any such office or appointment, shall be void.

§ 8. No person shall be eligible to the legislature who at the time of his election is, or within one hundred days previous thereto has been, a member of congress, a civil or military officer under the United States, or an officer under any city government. And if any person shall, after his election as a member of the legislature, be elected to congress or appointed to any office, civil or military under the government of the United States, or under any city government, his acceptance thereof shall vacate his seat.

And that the following additional sections be added to said article three of the constitution:

§ 17. No act shall be passed which shall provide that any existing law, or any part thereof, shall be made or deemed a part of said act, or which shall enact that any existing law, or any part thereof, shall be applicable, except by inserting it in such act.

§ 18. The legislature shall not pass a private or local bill in any of the following cases:

Changing the names of persons.

Laying out, opening, altering, working or discontinuing roads, highways or alleys, or for draining swamps or other low lands.

Locating or changing county seats.

Providing for changing of venue in civil or criminal cases.

Incorporating villages.

Providing for election of members of boards of supervisors.

Selecting, drawing, summoning or impanneling grand or petit jurors.

Regulating the interest on money.

The opening and conducting of elections or designating places of voting.

Creating, increasing or decreasing fees, percentage or allowance of public officers during the term for which said officers are elected or appointed.

Granting to any corporation, association or individual the right to lay down railroad tracks.

Granting to any private corporation, association or individual any exclusive privilege, immunity or franchise whatever.

Providing for building bridges, and chartering companies for such purposes, except on the Hudson river below Waterford, and on the East river, or over the waters forming a part of the boundaries of the state.

The legislature shall pass general laws providing for the cases enumerated in this section, and for all other cases which in its judgment may be provided for by general laws. But no law shall authorize the construction or operation of a street railroad except upon the condition that the consent of the owners of one-half in value of the property bounded on, and the consent also of the local authorities having the control of that portion of a street or highway upon which it is proposed to construct or operate such railroad be first obtained, or, in case the consent of such property-owners cannot be obtained, the general term of the supreme court in the district in which it is proposed to be constructed may, upon application, appoint three commissioners, who shall determine, after a hearing of all parties interested, whether such railroad ought to be constructed or operated, and their determination, confirmed by the court, may be taken in lieu of the consent of the property owners.

§ 19. The legislature shall neither audit nor allow any private claim or account against the state, but may appropriate money to pay such claims as shall have been audited and allowed according to law.

§ 20. Every law which imposes, continues or revives a tax shall distinctly state the tax and the object to which it is to be applied, and it shall not be sufficient to refer to any other law to fix such tax or object.

§ 21. On the final passage, in either house of the legislature, of any act which imposes, continues or revives a tax, or creates a debt or charge, or makes, continues or revives any appropriation of public or trust money or property, or releases, discharges or commutes any claim or demand of the state, the question shall be taken by yeas and nays, which shall be duly entered upon the journals, and three-fifths of all the members elected to either house shall in all such cases be necessary to constitute a quorum therein.

§ 22. There shall be in the several counties, except in cities whose boundaries are the same as those of the county, a board of supervisors, to be composed of such members and elected in such a manner, and for such period, as is or may be provided by law. In any such cities the duties and powers of a board of supervisors may be devolved upon the common council or board of aldermen thereof.

Section seventeen of said article is hereby made section twenty-three of the proposed amendment, and is so amended as to read as follows:

§ 23. The legislature shall, by general laws, confer upon the boards of supervisors of the several counties of the state such further powers of local legislation and administration as the legislature may from time to time deem expedient.

§ 24. The legislature shall not, nor shall the common council of any city, nor any board of supervisors, grant any extra compensation to any public officer, servant, agent or contractor.

§ 25. Sections seventeen and eighteen of this article shall not apply to any bill or the amendments to any bill which shall be reported to the legislature by commissioners who have been appointed pursuant to law to revise the statutes.

Resolved, (if the assembly concur), That the foregoing amendment be referred to the legislature to be chosen at the next general election of senators, and that, in conformity to section one of article thirteen of the constitution, it be published for three months previous to the time of such election.

The persons holding the offices at the time when this section shall take effect shall continue to hold the same until the first day of January next succeeding the first election of comptroller and secretary of state, pursuant to the provisions hereof, and shall each receive a salary to be fixed by law for such time as they may hold such offices beyond the term for which they shall have been elected

§ 2. The attorney-general and state engineer and surveyor shall be appointed by the governor, with the consent of the senate, and hold their offices until the end of the term of the governor by whom they shall be nominated, and until their successors are appointed. No person shall be appointed state engineer and surveyor who is not a practical engineer.

§ 3. A superintendent of state prisons shall be appointed by the governor, with the consent of the senate, and hold his office for five years, unless sooner removed; he shall give security in such amount, and with such sureties, as shall be required by law for the faithful discharge of his duties; he shall have the superintendence, management and control of the state prisons, subject to such laws as now exist or may hereafter be enacted; he shall appoint the agents, wardens, physicians and chaplains of the prisons. The governor may remove the superintendent for cause at any time, giving to him a copy of the charges against him, and an opportunity to be heard in his defense

§ 4. The treasurer shall be chosen by the senate and assembly in joint ballot, and hold his office for three years, and until his successor shall be chosen and qualified. He shall, before entering upon the duties of his office, give such security as may be required by law. He may be suspended from office by the governor during the recess of the legislature, and until thirty days after the commencement of the next session of the legislature, whenever it shall appear to him that such treasurer, has, in any particular, violated his duty. The governor shall appoint a competent person to discharge the duties of the office during such suspension of the treasurer.

§ 5. The lieutenant governor, comptroller, secretary of state, attorney-general, treasurer and state engineer and surveyor shall be the commissioners of the land office. The office of the commissioner of the canal fund is abolished, and all the powers and duties heretofore had and performed by the commissioners of the canal fund shall hereafter be had or performed by the comptroller. The canal board shall consist of the lieutenant governor, secretary of state, treasurer, attorney-general, state engineer and surveyor, and superintendent of public works.

§ 6. A superintendent of public works shall be appointed by the governor, with the consent of the senate, and to hold his office until the end of the term of the governor by whom he was nominated and until his successor is appointed. He shall receive for his services a compensation to be fixed by law. He shall be required by law to give security for the faithful execution of his office, before entering upon the duties thereof. He shall be charged with the execution of all laws relating to the repair and navigation of the canals; and also of those relating to the construction and improvement of the canals, except so far as the execution of the laws relating to such construction or improvement shall be confided to the state engineer and surveyor. Subject to the control of the legislature, he shall make the rules and regulations for the navigation or use of the canals. He may be suspended or removed from office by the governor, whenever in his judgment the public interest shall so require; but in case of removal of such superintendent of public works from office, the governor shall file with the secretary of state a statement of the cause of such removal, and shall report such removal and the cause thereof, to the legislature at its next session.

§ 7. The superintendent of public works shall appoint not more than three assistant superintendents, whose duties shall be prescribed by him, subject to modification by the legislature, and who shall receive for their services a compensation to be fixed by law. They shall hold their office for three years, subject to suspension or removal by the superintendent of public works, whenever in his judgment the public interest shall so require. Any vacancy in the office of any such assistant superintendent shall be filled, for the remainder of the term for which he was appointed, by the superintendent of public works; but in case of the suspension or removal of any such assistant superintendent by him he shall at once report to the governor, in writing, the cause of such removal. All other persons employed in the care and management of the canals, except collectors of tolls, and those in the department of the state engineer and surveyor, shall be appointed by the superintendent of public works, and be subject to suspension or removal by him.

§ 8. The office of canal commissioner is abolished from and after the appointment and qualification of the superintendent of public works, until which time the canal commissioners shall continue to discharge their duties as now provided by law. The superintendent of public works shall perform all the duties of the canal commissioners, and board of canal commissioners, as now declared by law, until otherwise provided by the legislature.

§ 9. The governor, by and with the consent of the senate, shall have power to fill vacancies, in the offices in this article named except as herein otherwise provided; or, if the senate be not in session, he may grant commissions, which shall expire at the end of the next succeeding session of the senate.

§ 10. The attorney-general, state engineer and surveyor and treasurer, in office at the time this article shall take effect, shall hold their offices until their successors are appointed.

§ 11. The powers and duties of the respective boards, and of the several officers in this article named, shall, except as herein otherwise provided, be such as now are or hereafter may be prescribed by law.

§ 12. All offices for the weighing, gauging, measuring, culling or inspecting any merchandise, produce, manufacture or commodity whatever, are hereby abolished, and no such office shall hereafter be created by law; but nothing in this section contained shall abrogate any office created for the purpose of protecting the public health or the interest of the state in its property, revenue, tolls or purchase, or of supplying the people with correct standards of weights and measures, or shall prevent the creation of any office for such purposes hereafter.

Resolved, (if the assembly concur), That the foregoing amendment be referred to the legislature to be chosen at the next general election of senators, and that in conformity to section one of article thirteen of the constitution, it be published for three months previous to the time of such election.

SECTION 1. The executive power shall be vested in a governor who shall hold his office for three years; a lieutenant-governor shall be chosen at the same time, and for the same term. The governor and lieutenant-governor elected next preceding the time when this section shall take effect, shall hold office during the term for which they were elected.

§ 2. No person shall be eligible to the office of governor or lieutenant-governor, except a citizen of the United States, of the age not less than thirty years, and who shall have been five years, next preceding his election, a resident of this state.

§ 4. The governor shall be commander-in-chief of the military and naval forces of the state. He shall have power to convene the legislature (or the senate only) on extraordinary occasions. At extraordinary sessions no subject shall be acted upon, except such as the governor may recommend for consideration. He shall communicate by message to the legislature at every session the condition of the state, and recommend such matters to them as he shall judge expedient. He shall transact all necessary business with the officers of government, civil and military. He shall expedite all such measures as may be resolved upon by the legislature, and shall take care that the laws are faithfully executed. He shall receive for his services an annual salary of ten thousand dollars, and there shall be provided for his use a suitable and furnished executive residence.

§ 8. The lieutenant-governor shall receive for his services an annual salary of five thousand dollars, and shall not receive or be entitled to any other compensation, fee or perquisite, for any duty and service he may be required to perform by the constitution or by law.

§ 9. Every bill which shall have passed the senate and assembly, shall, before it becomes a law, be presented to the governor; if he approve, he shall sign it; but if not, he shall return it with his objections to the house in which it shall have originated, which shall enter the objections at large on the journal, and proceed to reconsider it. If, after such reconsideration, two-thirds of the members elected to that house shall agree to pass the bill, it shall be sent together with the objections to the other house, by which it shall likewise be reconsidered; and if approved by two-thirds of the members elected to that house, it shall become a law notwithstanding the objections of the governor. In all such cases, the votes in both houses shall be determined by yeas and nays, and the names of the members voting shall be entered on the journal of each house respectively. If any bill shall not be returned by the governor within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the legislature shall, by their adjournment, prevent its return; in which case it shall not become a law without the approval of the governor. No bill shall become a law after the final adjournment of the legislature unless approved by the governor within thirty days after such adjournment. If any bill presented to the governor contain several items of appropriations of money, he may object to one or more of such items, while approving of the other portion of the bill. In such case, he shall append to the bill, at the time of signing it, a statement of the items to which he objects; and the appropriation so objected to shall not take effect. If the legislature be in session, he shall transmit to the house in which the bill originated a copy of such statement, and the items objected to shall be separately reconsidered. If, on reconsideration, one or more of such items be approved by two-thirds of the members elected to each house, the same shall be part of the law, notwithstanding the objections of the governor. All the provisions of this section, in relation to bills not approved by the governor, shall apply in cases in which he shall withhold his approval from any item or items contained in a bill appropriating money.

Resolved, (if the assembly concur). That the foregoing amendment be referred to the legislature to be chosen at the next general election of senators, and that, in conformity to section one of article thirteen of the constitution, it be published for three months previous to the time of such election.

STATE OF NEW YORK, In Senate, May 29, 1873.—The foregoing resolutions were duly passed.

AYER'S HAIR VIGOR,

FOR RESTORING GRAY HAIR

To its Natural Vitality and Color.

Advancing years, sickness, care, disappointment, and hereditary predisposition, all turn the hair gray, and either of them incline it to shed prematurely.

AYER'S HAIR VIGOR by long and extensive use, has proven that it stops the falling of the hair immediately often renews the growth, and always surely restores its color, when faded or gray It stimulates the nutritive organs to healthy activity, and preserves both the hair and its beauty.—Thus brashy weak or sickly hair becomes glossy, pliable and strengthened; lost hair regrows with lively expression; falling hair is checked and stablished; thin hair thickens; and faded or gray hair resume their original color. Its operation is sure and harmless. It cures dandruff, heals all humors, and keeps the scalp cool, clean and soft—under which conditions, diseases of the scalp are impossible.

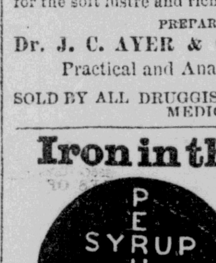

As a dressing for ladies' hair, the VIGOR is praised for its grateful and agreeable perfume, and valued for the soft lustre and richness of tone it imparts.

Is the most powerful cleanser, strengthener and remover of Glandular Obstructions known to *Materia Medica.*

It is specially adapted to constitutions "worn down" and debilitated by the warm weather of Spring and Summer, when the blood is not in active circulation, consequently gathering impurities from sluggishness and imperfect action of the secretive organs, and is manifested by Tumors, Eruptions, Blotches, Boils, Pustules, Scrofula, &c., &c.

When weary and languid from overwork, and dullness, drowsiness and inertia take the place of energy and vigor, the system needs a *Tonic* to build it up and help the Vital Forces to regain their recuperative power.

In the heat of Summer, frequently the *Liver* and *Spleen* do not properly perform their functions; the Uterine and Urinary Organs are inactive, producing weakness of the stomach and intestines and a predisposition to bilious derangement.

This section shall not affect the validity of any existing statutes in relation to the offence of bribery.

§ 2. Any person who shall offer or promise a bribe to an officer, if it shall be received, shall be deemed guilty of a felony and be liable to a punishment, except as herein provided. No person offering a bribe shall, upon any prosecution of the officer for receiving such bribe, be privileged from testifying in relation thereto, and he shall not be liable to civil or criminal prosecution therefor, if he shall testify to the giving or offering of such bribe. Resolved (if the assembly concur), That sections three and six of article seven be amended as follows:

Section three to be amended by adding at the end of the section the following:

No extra compensation shall be made to any contractor; but if from any unforeseen cause, the terms of any contract shall prove to be unjust and oppressive, the canal board may, upon the application of the contractor, cancel such contract.

§ 6. The legislature shall not sell, lease or otherwise dispose of the Erie canal, the Oswego canal, the Champlain canal, the Black River canal, or the Cayuga and Seneca canal; but they shall remain the property of the state and under its management forever. Hereafter the expenditure for collections, superintendence, ordinary and extraordinary repairs on the canals named in this section shall not exceed, in any year, their gross receipts for the previous year. All funds that may be derived from any lease, sale or other disposition of any canal shall be applied in payment of the debt for which the canal revenues are pledged.

That the following be added as sections thirteen and fourteen, in place of sections thirteen and fourteen of this article, which have been transferred and inserted as sections twenty-one and twenty-two of article three.

§ 13. The sinking funds provided for the payment of interest and extinguishment of the principal of the debts of the state, shall be separately kept and safely invested, and neither of them shall be appropriated or used in any manner other than for the specific purpose for which it shall have been provided.

§ 14. Neither the legislature, canal board, canal appraisers, nor any person or persons acting in behalf of the state, shall audit, allow or pay any claim which, as between citizens of the state, would be barred by lapse of time. The limitation of existing claims shall begin to run from the adoption of this section; but this provision shall not be construed to revive claims already barred by existing statutes, nor to repeal any statute fixing the time within which claims shall be presented or allowed, nor shall it extend to any claims duly presented within the time allowed by law, and prosecuted with due diligence from the time of such presentment. But if the claimant shall be under legal disability, the claim may be presented within two years after such disability is removed.

CONCURRENT RESOLUTIONS proposing amendments to article three of the constitution.

Resolved (if the assembly concur), That sections one, four, five, six, seven and eight of article three of the constitution be amended so as to read as follows:

ARTICLE III.

SECTION 1. The legislative power of the state shall be vested in a senate and assembly.

§ 4. An enumeration of the inhabitants of the state shall be made under the direction of the legislature, in the year one thousand eight hundred and seventy-five, and in every tenth year thereafter.

§ 5. The assembly shall consist of one hundred and twenty-eight members elected for one year. The members of assembly shall be apportioned among the several counties of the state, by the legislature, as nearly as may be, according to the number of their respective inhabitants, excluding aliens, and shall be chosen by single districts. The assembly districts shall remain as at present organized until after the enumeration of the inhabitants of the state in the year eighteen hundred and seventy-five. The legislature, at its first session after the return of every enumeration, shall apportion the members of assembly among the several counties of the state, in manner aforesaid, and the board of supervisors in such counties as may be entitled under such apportionment to more than one member, except the city and county of New York, and in said city and county the board of aldermen of said city shall assemble at such times as the legislature making such apportionment shall prescribe and divide their respective counties into assembly districts, each of which districts shall consist of convenient and contiguous territory equal to the number of members of assembly to which such counties shall be entitled, and shall cause to be filed in the offices of the secretary of state and the clerks of their respective counties a description of such districts, specifying the number of each district, and the population thereof, according to the last preceding enumeration, as near as can be ascertained, and the apportionment and districts shall remain unaltered until another enumeration shall be made as herein provided. No town shall be divided in the formation of assembly districts. Every county heretofore established and separately organized, except the county of Hamilton, shall always be entitled to one member of the assembly, and no new county shall be hereafter erected unless its population shall entitle it to a member. The county of Hamilton shall elect with the county of Fulton until the population of the county of Hamilton shall, according to the ratio, be entitled to a member. But the legislature may abolish the said county of Hamilton and annex the territory thereof to some other county or counties. Nothing in this section shall prevent division at any time of counties and towns, and the erection of new towns and counties by the legislature.

§ 6. Each member of the legislature shall receive for his service an annual salary of one thousand five hundred dollars. The members of either house shall also receive the sum of one dollar for every ten miles they shall travel in going to and returning from their place of meeting, once in each session, on the most usual route. Senators, when the senate alone is convened in extraordinary session, or when serving as members of the court for the trial of impeachments, and such members of the assembly, not exceeding nine in number, as shall be appointed managers of an impeachment, shall receive an additional allowance of ten dollars a day.

§ 7. No member of the legislature shall receive any civil appointment within this state, or the senate of the United States, from the governor, the governor and senate, or from the legislature, or from any city government, during the time for which he shall have been elected; and all such appointments, and all votes given for any such member for any such office or appointment, shall be void.

§ 8. No person shall be eligible to the legislature who at the time of his election is, or within one hundred days previous thereto has been, a member of congress, a civil or military officer under the United States, or an officer under any city government. And if any person shall, after his election as a member of the legislature, be elected to congress or appointed to any office, civil or military under the government of the United States, or under any city government, his acceptance thereof shall vacate his seat.

And that the following additional sections be added to said article three of the constitution:

§ 17. No act shall be passed which shall provide that any existing law, or any part thereof, shall be made or deemed a part of said act, or which shall enact that any existing law, or any part thereof, shall be applicable, except by inserting it in such act.

§ 18. The legislature shall not pass a private or local bill in any of the following cases:

Changing the names of persons.

Laying out, opening, altering, working or discontinuing roads, highways or alleys, or for draining swamps or other low lands.

Locating or changing county seats.

Providing for changing of venue in civil or criminal cases.

Incorporating villages.

Providing for election of members of boards of supervisors.

Selecting, drawing, summoning or impanneling grand or petit jurors.

Regulating the interest on money.

The opening and conducting of elections or designating places of voting.

Creating, increasing or decreasing fees, percentage or allowance of public officers during the term for which said officers are elected or appointed.

Granting to any corporation, association or individual the right to lay down railroad tracks.

Granting to any private corporation, association or individual any exclusive privilege, immunity or franchise whatever.

Providing for building bridges, and chartering companies for such purposes, except on the Hudson river below Waterford, and on the East river, or over the waters forming a part of the boundaries of the state.

The legislature shall pass general laws providing for the cases enumerated in this section, and for all other cases which in its judgment may be provided for by general laws. But no law shall authorize the construction or operation of a street railroad except upon the condition that the consent of the owners of one-half in value of the property bounded on, and the consent also of the local authorities having the control of that portion of a street or highway upon which it is proposed to construct or operate such railroad be first obtained, or, in case the consent of such property-owners cannot be obtained, the general term of the supreme court in the district in which it is proposed to be constructed may, upon application, appoint three commissioners, who shall determine, after a hearing of all parties interested, whether such railroad ought to be constructed or operated, and their determination, confirmed by the court, may be taken in lieu of the consent of the property owners.

§ 19. The legislature shall neither audit nor allow any private claim or account against the state, but may appropriate money to pay such claims as shall have been audited and allowed according to law.

§ 20. Every law which imposes, continues or revives a tax shall distinctly state the tax and the object to which it is to be applied, and it shall not be sufficient to refer to any other law to fix such tax or object.

§ 21. On the final passage, in either house of the legislature, of any act which imposes, continues or revives a tax, or creates a debt or charge, or makes, continues or revives any appropriation of public or trust money or property, or releases, discharges or commutes any claim or demand of the state, the question shall be taken for yeas and nays, which shall be duly entered upon the journals, and three-fifths of all the members elected to either house shall in all such cases be necessary to constitute a quorum therein.

§ 22. There shall be in the several counties, except in cities whose boundaries are the same as those of the county, a board of supervisors, to be composed of such members and elected in such a manner, and for such period, as is or may be provided by law. In any such cities the duties and powers of a board of supervisors may be devolved upon the common council or board of aldermen thereof.

Section seventeen of said article is hereby made section twenty-three of the proposed amendment, and is amended so as to read as follows:

§ 23. The legislature shall, by general laws, confer upon the boards of supervisors of the several counties of the state such further powers of local legislation and administration as the legislature may from time to time deem expedient.

§ 24. The legislature shall not, nor shall the common council of any city, nor any board of supervisors, grant any extra compensation to any public officer, servant, agent or contractor.

CONCURRENT RESOLUTIONS proposing amendments to article five of the constitution.

Resolved, (if the assembly concur.) That article five of the constitution be amended so as to read as follows:

§1. The comptroller and secretary of state shall be chosen at the same general election, and for the same term as the governor. The persons holding the offices at the time when this section shall take effect shall continue to hold the same until the first day of January next succeeding the first election of comptroller and secretary of state, pursuant to the provisions hereof, and shall each receive a salary to be fixed by law for such time as they may hold such offices beyond the term for which they shall have been elected

§ 2. The attorney-general and state engineer and surveyor shall be appointed by the governor, with the consent of the senate, and hold their offices until the end of the term of the governor by whom they shall be nominated, and until their successors are appointed. No person shall be appointed state engineer and surveyor who is not a practical engineer.

§ 3. A superintendent of state prisons shall be appointed by the governor, with the consent of the senate, and hold his office for five years, unless sooner removed; he shall give security in such amount, and with such sureties, as shall be required by law for the faithful discharge of his duties; he shall have the superintendence, management and control of the state prisons, subject to such laws as now exist or may hereafter be enacted; he shall appoint the agents, wardens, physicians and chaplains of the prisons. The agent and warden of each prison shall appoint all other officers of such prison, except the clerk, subject to the approval of the same by the superintendent. The comptroller shall appoint the clerks of the prisons. The superintendent shall have all the powers and perform all the duties not inconsistent herewith, which have heretofore been had and performed by the inspectors of state prisons; and from and after the time when such superintendent of state prisons shall have been appointed and qualified, the office of inspector of state prisons shall be and is hereby abolished. The governor may remove the superintendent for cause at any time, giving to him a copy of the charges against him, and an opportunity to be heard in his defense

§ 4. The treasurer shall be chosen by the senate and assembly in joint ballot, and hold his office for three years, and until his successor shall be chosen and qualified. He shall, before entering upon the duties of his office, give such security as may be required by law. He may be suspended from office by the governor during the recess of the legislature, and until thirty days after the commencement of the next session of the legislature, whenever it shall appear to him that such treasurer, has, in any particular, violated his duty. The governor shall appoint a competent person to discharge the duties of the office during such suspension of the treasurer.

§ 5. The lieutenant governor, comptroller, secretary of state, attorney-general, treasurer and state engineer and surveyor shall be the commissioners of the land office. The office of the commissioner of the canal fund is abolished, and all the powers and duties heretofore had and performed by the commissioners of the canal fund shall hereafter be had or performed by the comptroller. The canal board shall consist of the lieutenant governor, secretary of state, treasurer, attorney-general, state engineer and surveyor, and superintendent of public works.

§ 6. A superintendent of public works shall be appointed by the governor, with the consent of the senate, and to hold his office until the end of the term of the governor by whom he was nominated and until his successor is appointed. He shall receive for his services a compensation to be fixed by law. He shall be required by law to give security for the faithful execution of his office, before entering upon the duties of his office. He shall be charged with the execution of all laws relating to the repair and navigation of the canals; and also of those relating to the construction and improvement of the canals, except so far as the execution of the laws relating to such construction or improvement shall be confided to the state engineer and surveyor. Subject to the control of the legislature, he shall make the rules and regulations for the navigation or use of the canals. He may be suspended or removed from office by the governor, whenever in his judgment the public interest shall so require; but in case of removal of such superintendent of public works from office, the governor shall file with the secretary of state a statement of the cause of such removal, and shall report such removal and the cause thereof, to the legislature at its next session.

§ 7. The superintendent of public works shall appoint not more than three assistant superintendents, whose duties shall be prescribed by him, subject to modification by the legislature, and who shall receive for their services a compensation to be fixed by law. They shall hold their office for three years, subject to suspension or removal by the superintendent of public works, whenever in his judgment the public interest shall so require. Any vacancy in the office of any such assistant superintendent shall be filled, for the remainder of the term for which he was appointed, by the superintendent of public works; but in case of the suspension or removal of any such assistant superintendent by him he shall at once report to the governor, in writing, the cause of such removal. All other persons employed in the care and management of the canals, except collectors of tolls, and those in the department of the state engineer and surveyor, shall be appointed by the superintendent of public works, and be subject to suspension or removal by him.

§ 8. The office of canal commissioner is abolished from and after the appointment and qualification of the superintendent of public works, until which time the canal commissioners shall continue to discharge their duties as now provided by law. The superintendent of public works shall perform all the duties of the canal commissioners, and board of canal commissioners, as now declared by law, until otherwise provided by the legislature.

§ 9. The governor, by and with the consent of the senate, shall have power to fill vacancies, in the offices in this article named except as herein otherwise provided; or, if the senate be not in session, he may grant commissions, which shall expire at the end of the next succeeding session of the senate.

§ 10. The attorney-general, state engineer and surveyor and treasurer, in office at the time this article shall take effect, shall hold their offices until their successors are appointed.

§ 11. The powers and duties of the respective boards, and of the several officers in this article named, shall, except as herein otherwise provided, be such as now are or hereafter may be prescribed by law.

§ 12. All offices for the weighing, gauging, measuring, culling or inspecting any merchandise, produce, manufacture or commodity whatever, are hereby abolished, and no such office shall hereafter be created by law; but nothing in this section contained shall abrogate any office created for the purpose of protecting the public health or the interest of the state in its property, revenue, tolls or purchase, or of supplying the people with correct standards of weights and measures, or shall prevent the creation of any office for such purposes hereafter.

Resolved, (if the assembly concur), That the foregoing amendment be referred to the legislature to be chosen at the next general election of senators, and that in conformity to section one of article thirteen of the constitution, it be published for three months previous to the time of such election.

CONCURRENT RESOLUTIONS proposing amendments to article four of the constitution.

Resolved, (if the assembly concur), That sections one, two, four, eight and nine of article four of the constitution be amended so as to read as follows:

SECTION 1. The executive power shall be vested in a governor who shall hold his office for three years; a lieutenant-governor shall be chosen at the same time, and for the same term. The governor and lieutenant-governor elected next preceding the time when this section shall take effect, shall hold office during the term for which they were elected.

§ 2. No person shall be eligible to the office of governor or lieutenant-governor, except a citizen of the United States, of the age not less than thirty years, and who shall have been five years, next preceding his election, a resident of this state.

§ 4. The governor shall be commander-in-chief of the military and naval forces of the state. He shall have power to convene the legislature (or the senate only) on extraordinary occasions. At extraordinary sessions no subject shall be acted upon, except such as the governor may recommend for consideration. He shall communicate by message to the legislature at every session the condition of the state, and recommend such matters to them as he shall judge expedient. He shall transact all necessary business with the officers of government, civil and military. He shall expedite all such measures as may be resolved upon by the legislature, and shall take care that the laws are faithfully executed. He shall receive for his services an annual salary of ten thousand dollars, and there shall be provided for his use a suitable and furnished executive residence.

§ 8. The lieutenant-governor shall receive for his services an annual salary of five thousand dollars, and shall not receive or be entitled to any other compensation, fee or perquisite, for any duty and service he may be required to perform by the constitution or by law.

§ 9. Every bill which shall have passed the senate and assembly, shall, before it becomes a law, be presented to the governor; if he approve, he shall sign it; but if not, he shall return it with his objections to the house in which it shall have originated, which shall enter the objections at large on the journal, and proceed to reconsider it. If, after such reconsideration, two-thirds of the members elected to that house shall agree to pass the bill, it shall be sent together with the objections to the other house, by which it shall likewise be reconsidered; and if approved by two-thirds of the members elected to that house, it shall become a law notwithstanding the objections of the governor. In all such cases, the votes in both houses shall be determined by yeas and nays, and the names of the members voting shall be entered on the journal of each house respectively. If any bill shall not be returned by the governor within ten days (Sundays excepted) after it shall have been presented to him, the same shall be a law in like manner as if he had signed it, unless the legislature shall, by their adjournment, prevent its return; in which case it shall not become a law without the approval of the governor. No bill shall become a law after the final adjournment of the legislature unless approved by the governor within thirty days after such adjournment. If any bill presented to the governor contain several items of appropriations of money, he may object to one or more of such items, while approving of the other portion of the bill. In such case, he shall append to the bill, at the time of signing it, a statement of the items to which he objects; and the appropriation so objected to shall not take effect. If the legislature be in session, he shall transmit to the house in which the bill originated a copy of such statement, and the items objected to shall be separately reconsidered. If, on reconsideration, one or more of such items be approved by two-thirds of the members elected to each house, the same shall be part of the law, notwithstanding the objections of the governor. All the provisions of this section, in relation to bills not approved by the governor, shall apply in cases in which he shall withhold his approval from any item or items contained in a bill appropriating money.

Resolved, (if the assembly concur), That the foregoing amendment be referred to the legislature to be chosen at the next general election of senators, and that, in conformity to section one of article thirteen of the constitution, it be published for three months previous to the time of such election.
